

Madison Gibbons

Decatur, Georgia | +1 347 608 6789 | mgibbons989@gmail.com | <https://www.linkedin.com/in/madison-gibbons>

EDUCATION

Georgia State University – Atlanta, GA Expected Graduation: December 2025
Bachelor's in Computer Science, Minor in Computer Information Systems GPA: 3.65
Dean's List Fall 2022, Spring 2023, Spring 2024 | President's List Fall 2024, Spring 2025, Summer 2025
Relevant Courses: Software Engineering, Data Structures and Algorithms, Design & Analysis: Algorithms, System-Level Programming, Web Programming, Database Systems, Data Science Programming

SKILLS

Programming Languages: Python, JavaScript, SQL, Java, PHP, HTML, CSS
Tools: MySQL, Flask, React, Visual Studio Code, Railway, Electron, Git

PROJECTS

- MyMoney – Time Tracking Web App** April 2025
- Built on a full-stack time tracking app using React, Flask, and PostgreSQL, allowing employees to securely log work hours, view schedules, and manage pay periods
 - Developed tools for managers to handle employee data, assign and edit shifts, and manage positions in the database, improving administrative efficiency and reducing manual scheduling time by 50% during team testing.
 - Implemented user authentication with bcrypt and JWTs (JSON Web Tokens), along with email and password validation, ensuring secure account access and protecting sensitive payroll data.
 - Designed interactive UI components and collaborated in testing functionality to improve user experience
- Real Estate Website** December 2024
- Worked with a team to develop and deploy a seller dashboard using React, Express.js, and MySQL to simplify property management, enabling users to securely add, edit, and manage multiple property listings.
 - Implemented user registration and login functions using MySQL for secure data storage, enhancing user experience and data integrity.
 - Streamlined deployment by hosting backend on Railway and frontend on GitHub Pages, ensuring reliable and accessible functionality across platforms.
- Jeopardy Inspired Quiz Game** November 2024
- Independently developed a Jeopardy-style quiz game, utilizing PHP to implement login and registration functionality to enhance user accessibility and personalization.
 - Designed and developed a full-stack application from concept to deployment, featuring user authentication and dynamic gameplay, creating a responsive and intuitive user interface with HTML and CSS, providing engaging experience across devices.

EXPERIENCE

- Greif** May 2025 – July 2025
Service Desk Management Intern
- Attended and contributed to weekly management meetings to support service desk operations and gain insight into leadership practices
 - Developed a desktop checklist app using Electron and React to guide service desk associates through key troubleshooting steps and questions during calls; Adopted by my team with a reported 80% improved workflow
 - Collaborated with data engineering and business analytics interns to build an Ivanti Service Desk dashboard in Power BI, transforming historical ticket data into actionable insights for leadership
 - Built a real-time Ivanti dashboard from scratch to help service desk associates prioritize open tickets and tasks, enhancing user experience and improving day-to-day visibility
- Bloomberg Tech Insights Program** April 2025 – June 2025
Student
- Selected for a 10-week mentorship program featuring biweekly workshops and one-on-one sessions to strengthen algorithmic problem-solving and Python proficiency
 - Refined technical interview skills through mock interviews and real-world coding challenges focusing on topics including recursion, sorting algorithms, and binary trees, etc.
- Bloomberg** February 2025
Tech Lab Fellow
- Chosen as 1 of 36 fellows from 400+ applicants for a 3-day immersive program at Bloomberg's global headquarters, gaining hands-on experience in financial technology
 - Built a Python-based portfolio manager alongside engineers and peers, while participating in tech talks and interview workshops to enhance industry readiness.

AFFILIATIONS

- Secretary*, National Society of Black Engineers (NSBE) January 2025 – Present
Member, Women In Tech (WIT) May 2024 – Present
Member, Girls Who Code August 2024 – Present
