

Mahesh Venkat Reesu Full Stack Developer

maheshv@myworkmails.com | (806) 758 - 2758 | USA | [LinkedIn](#)

Summary

Results-driven Full Stack Developer almost 4 years of proven expertise in building scalable, secure, and high-performance applications across finance, SaaS, and enterprise domains. Experienced in Java, Spring Boot, React.js, Angular, Node.js, and Microservices architecture, with hands-on exposure to cloud platforms (AWS, Azure, GCP) and DevOps automation. Adept in system design, performance tuning, CI/CD, and container orchestration using Docker and Kubernetes. Skilled in cloud-native development, event-driven architecture, and API integrations to deliver business-critical solutions. Strong collaborator in Agile/Scrum environments, ensuring on-time delivery, optimized performance, and compliance with ISO 27001, SOC2, and GDPR standards.

Technical Skills

- **Frontend & UI/UX:** React.js, Angular, Redux, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, jQuery, AJAX, Material UI, Responsive Web Design, Cross-browser Optimization
- **Backend & Middleware:** Java (8–17), Spring Boot, Spring Core, Spring Security, Hibernate, Microservices, J2EE, Node.js, Express.js, Ruby on Rails, REST APIs, SOAP Services, GraphQL, WebSockets, Event-driven Architecture
- **Databases:** PostgreSQL, MySQL, Oracle, MongoDB, SQL Server, NoSQL, Redis, PL/SQL, Database Optimization, Query Tuning
- **Cloud & DevOps:** AWS (ECS, Lambda, S3, RDS, CloudFormation, CodePipeline, CodeBuild, CloudWatch, IAM), Microsoft Azure, Google Cloud Platform (GCP), Docker, Kubernetes, Terraform, Jenkins, Tekton CI/CD, PCF (Pivotal Cloud Foundry)
- **Testing & QA:** JUnit, Mockito, Jest, Selenium WebDriver, Cucumber, Postman, Integration Testing, SonarQube, Unit & Regression Testing, Test-driven Development (TDD), Behavior-driven Development (BDD)
- **Data, Messaging & Automation:** Kafka, GCP Pub/Sub, RabbitMQ, Informatica PowerCenter, Python (ETL, automation), Bash, Linux, Log4j, System Monitoring Scripts
- **Collaboration & Project Tools:** Git, GitHub, Maven, Gradle, Jira, Confluence, Agile, Scrum, SDLC, CI/CD automation, A/B Testing
- **Security & Compliance:** IAM Roles, Data Encryption, OAuth2, JWT, ISO 27001, SOC2, GDPR, Compliance Audits, Secure Coding Practices

Professional Experience

Full Stack Developer, Barclays

05/2024 – Present | Remote, USA

- Designed and delivered Wealth Management Client Portal for portfolio tracking, asset trading, and real-time market insights, impacting 15,000+ global users.
- Developed React-based UI with multi-factor authentication, dynamic dashboards, and secure trading workflows, improving usability and responsiveness by 25%.
- Architected Spring Boot microservices with REST APIs & WebSockets, enabling real-time order placement, compliance validation, and transaction logging, improving processing speeds by 40%.
- Designed PostgreSQL schema on AWS RDS, implementing encryption, IAM, and fine-grained access controls, improving data query performance by 30% while achieving 100% compliance with banking standards. Automated deployments via AWS CodePipeline & CodeBuild, reducing release errors by 45% and deployment time by 35%.
- Deployed applications on AWS ECS with CloudFormation, integrating auto-scaling and CloudWatch monitoring, ensuring 99.9% uptime and 20% faster global access speeds.
- Created unit & integration test coverage (85%) using JUnit, Mockito, and Jest, ensuring stability and reliability during frequent releases. Implemented Redis caching for real-time portfolio data, reducing query load on databases and cutting response times by 50%.
- Partnered with QA & product teams for A/B testing, optimizing user journeys and improving client engagement scores by 15%. Mentored 3 junior developers on best practices for React state management and Spring Boot microservices, enhancing team productivity.

Software Engineer, Engagedly Software India Pvt Ltd

06/2022 – 07/2023 | Bengaluru, India

- Built a centralized React.js UI component library, improving UI consistency and reducing development effort across 20+ applications. Integrated Slack & Microsoft Teams for real-time collaboration and workflow automation, boosting user engagement by 40%.
- Created actionable email notifications enabling instant responses (approve, comment, reject), improving turnaround times and reducing delays by 30%. Optimized notification workflows with dependency analysis, reducing latency for high-priority events by 25%.
- Maintained backend services with Node.js, Ruby on Rails, Pub/Sub, and REST APIs, delivering 99.9% uptime and improving system scalability.
- Improved system performance through query optimization, load balancing, and Redis caching, reducing high-load response times by 20%.
- Enhanced CI/CD pipelines with Jenkins and GitHub Actions, cutting deployment times by 30% and ensuring smoother releases. Conducted code reviews and pair programming sessions, improving code quality and reducing post-release bugs by 20%.
- Collaborated with product managers and designers to define scalable APIs and ensure seamless front-to-back integration.
- Documented system architecture and API specifications using Swagger and Confluence, improving onboarding and cross-team collaboration.

- Programmer Analyst Trainee, Cognizant**

09/2021 – 06/2022 | Chennai , India
- Managed ETL workflows in Informatica PowerCenter, executing secure and scalable data transformations for large enterprise clients. Automated system monitoring scripts (Python & Bash), preventing 10+ incidents/month and reducing downtime significantly.
 - Strengthened data security in ETL pipelines with SQL-based access controls, audit trails, and compliance reporting for ISO 27001 standards.
 - Collaborated with senior developers on legacy-to-modern migration projects, enhancing system maintainability and scalability.
 - Performed SQL performance tuning and query optimization, improving ETL job runtimes by 25%. Designed data validation frameworks to ensure accuracy and reliability of transformed data across multiple environments.
 - Contributed to Agile ceremonies (stand-ups, sprint reviews), improving delivery predictability and project transparency.

Education

Texas Tech University, Lubbock, TX, USA Master of Science in Computer Science	08/2023 – 05/2025
GMR Institute of Technology, Rajam, Andhra Pradesh, India Bachelor of Technology in Electronics and Communications	08/2017 – 08/2021

Certificates

- IBM Data Analyst Professional Certificate
- IBM Data Visualization & Analysis with Python and Tableau
- AWS Certified Solutions Architect – Associate
