Atlanta, GA 470 923-7356 mahithakasturi22@gmail.com [LinkedIn](#)

Education

St. Francis College, Brooklyn, NY (Hybrid)

June 2024 - August 2025

Master of Science, Healthcare Management

Rollins School of Public Health, Emory University, Atlanta, GA

May 2024

Master of Public Health, Global Epidemiology

GPA: 3.6

Chaitanya Bharathi Institute of Technology, Hyderabad, India

August 2021

Bachelor of Technology, Biotechnology

GPA 3.4

Experience

Tennessee Department of Health

Nashville, Tennessee (Remote)

Epidemiologist 1

September 2024 – June 2025

- Analyzed data for the Maternal Deaths Due to Violence (MVD) program using SAS, Excel, and ArcGIS to identify risk factors and trends from NEDSS ESSENCE, PRAMS, TNVDRS, TBI, and REDCap
- Built ESSENCE syndromic surveillance queries and conducted trend analyses on violence among reproductive-aged women
- Created infographics, one-pagers, and data visualizations (pivot tables, PowerBI dashboards), integrating MVD findings for stakeholders, community partners, and supported MVD grant reporting (QPRs)
- Designed and analyzed program assessment and training evaluations (REDCap and SAS), presenting insights to leadership and partners

Tennessee Department of Health

Nashville, Tennessee (Remote)

Intern

November 2023 – July 2024

- Designed geocoding methodology for 19,000+ inmate addresses using ArcGIS, Excel and SAS for the “**Mapping of Persons Living with Hepatitis C with a History of Incarceration**” project
- Produced map outputs for **spatial data visualization** and generated 10+ reports on overviews of the project findings using ArcGIS and Access
- **Cleaned, processed, and analyzed large datasets** using SAS to extract meaningful insights and support data-driven decision-making

Centers for Disease Control and Prevention

Atlanta, GA

Health Equity Intern

November 2023 – May 2024

- Crafted an injury prevention and policy toolkit to address gaps and communications in health equity
- Conducted **systematic literature reviews** using **Endnote** across injury-related topics, analyzing over 60+ articles per injury class to extract findings for inclusion in the toolkit

Health through Walls

Public Health Intern

Maputo, Mozambique

May 2023-July 2023

- Led the tracking, assessment, and implementation of public health interventions in Maputo prisons. Used mixed-methods data collecting and questionnaires to monitor TB treatment of jailed patients.
- Implemented Video Directly Observed Therapy to **conduct** X-ray diagnostics and **trained** a team of more than 40 prison healthcare and management staff, for consistent execution of the health blitz

Emory University, Rollins School of Public Health

Graduate Research Assistant- CHIP

Atlanta, GA

January 2023-July 2023

- Conducted COVID-19 testing for incarcerated individuals in three correctional facilities, **qualitative data analysis** of specimen and survey results, utilizing SAS, REDCap, and Excel, to identify key themes and insights
- Supported 4+ research proposals, 2 grant applications, and CHIP's research initiatives through in-depth literature review (100+ articles) and manuscript preparation.

Emory University, School of Medicine

Graduate Research Assistant- MYSTIC

Atlanta, GA

September 2022-April 2023

- Conducted 40+ focus group interviews (**FGIs**), **pre-assessments**, interventions, and **qualitative data analysis** for subjects with mild cognitive impairment (MCI) as part of the Cognitive Empowerment Program (CEP)
- Evaluated 120+ participants through comprehensive health assessments and implemented Rhythmic Movement Sequences (RMS) for 80+ study participants.
- Utilized NVIVO 11 and SAS for thematic analysis and regression modeling. Additionally, employed advanced Excel and Qualtrics for survey design and qualitative data analysis.

Cognizant Technology Solutions

Junior Researcher

Hyderabad, India

November 2021-June 2022

- Verified and validated clinical trial data from 21+ registries, biopharma conferences, regulatory sites, and journals through rigorous secondary research, supporting compliance with GCP, ICH, and FDA requirements.
- Performed **data entries** for over 1200+ clinical trials and supervised tracking and monitoring of updates in the database system jEDI

Awards and Skills

-
- **Technical Skills:** ArcGIS, SAS, R, MySQL, REDCap, NVivo 11, Qualtrics, EpiInfo, MAXQDA, C++ programming, Access, Tableau, MS Excel, MS Office, SharePoint, Canva, PowerBI, Asana, EHR systems
 - **Data:** Data Cleaning, Data Analysis, Data Visualization
 - **Online Certificates:** CITI Training: HIPAA Basics for Healthcare Professionals, COVID-19 Contact Tracing, The Science of Stem Cells, and edX Verified Certificate for Global Health, Human Subject Research Track, Human Subjects Protection- Biomedical Focus and Social/Behavioral Focus,
 - **Interpersonal Skills:** Problem Solving, Task Prioritization, Public Speaking, Leadership and Management
 - Rollins Earn and Learn Award, Rollins Pathway Award, Global Field Experience Financial Award

Leadership and Volunteer Experience

-
- Led student engagement as **Social Chair** at Rollins Student Government Association (November 2022-September 2023)
 - Provided critical public health support as a **COVID-19 Specimen Tester** at the Fulton County Jail (December 2022- February 2023)
