SUMMARY

Full-stack software developer specializing in secure, high-performance applications with strong OOP principles. Experienced in backend (Python, Django, RESTful APIs) and frontend (HTML, CSS, JavaScript), with skills in UI/API automation testing. Proficient in databases, Git/GitHub, Agile workflows, and familiar with Cloud platforms and Docker. Focused on secure design and software quality.

WORK EXPERIENCE

FREELANCER APP DEVELOPER

Feb '17 — Present

Phoenix Apps

Irvine

- Developing and maintaining responsive, secure applications with Python, Django, RESTful APIs, and frontend technologies, applying UX/UI principles, and managing databases for scalable, high-performance data storage.
- Updating my Android application on the Google Play Store, improving functionality, security, and user experience based on feedback.
