

Electronics and Telecommunication Engineering graduate with 5 years of professional experience in marketing and analytics. Recently completed a Post Graduate Program in Machine Learning & Artificial Intelligence and actively seeking a full time role as a data analyst/business analyst to bridge technical expertise with business impact.

▪ Data Analysis & Visualization

▪ Marketing Analytics

▪ Tableau (Basic)

▪ Python

EDUCATION

Post Graduate Program in Artificial Intelligence and Machine Learning	April 2025
The University of Texas, Austin	
Bachelor of Engineering - Electronics and Telecommunication Engineering	May 2018
Rajiv Gandhi College of Engineering & Research, INDIA	

TECHNICAL SKILLS

Languages: Python, SQL
Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Tools: Excel, Tableau, Jupyter Notebook
Platforms: GitHub, Google Colab

PROFESSIONAL EXPERIENCE

Sr Business Analyst, Walnut Folks, India	Feb 2023 to May 2023
- Led end-to-end business analysis for high-impact projects, aligning business goals with technical solutions across cross-functional teams. - Utilized Python(Pandas,Matplotlib) to clean, process, and visualize large datasets, uncovering trends in user engagement and campaign performance. - Conducted in-depth data analysis using SQL, Excel, and Tableau to identify trends, opportunities, and actionable insights.	
Lead (Business Analytics), Walnut Folks Group, India	Nov 2021 to Jan 2023
- Acted as a customer advocate during joint campaigns, ensuring partner experience and co-brand alignment. - Leveraged SQL to extract performance data from CRM and marketing automation platforms for in-depth partnership reporting and executive dashboards. - Monitored and analyzed campaign performance using tools such as Google Analytics, Excel, Tableau.	
Campaign Manager (Brand Success), Walnut Folks Group, India	Mar 2020 to Oct 2021
- Led strategic brand success initiatives for B2B partners, acting as the primary liaison between internal teams and external brand stakeholders to ensure goal alignment and ongoing value delivery. - Monitored campaign metrics; generated detailed performance reports and insights using Google Analytics & Excel.	
Content Marketing Manager, Zehn Solutions, India	Sep 2019 to Mar 2020
- Collaborating with sales and design teams to plan and develop site content, style and layout - Sharing content to raise brand awareness and monitoring web traffic and metrics to identify best practices.	
Business Development Associate, Shoora Global, India	Sep 2018 to Sep 2019
- Generated new business via cold emails, LinkedIn, and networking on social media (Fiverr, Upwork, etc). - Collaborated with marketing team to develop successful marketing strategies.	

PROJECTS

Credit Card Churn Prediction	
➤ Developed a machine learning model to predict customer churn, aiming to enhance retention strategies for Thera Bank's credit card services. ➤ Implemented and compared multiple models- Bagging, Random Forest, AdaBoost, Gradient Boosting, Decision Trees, and XGBoost which were trained with original, oversampled, and under sampled data. ➤ Recommended targeted marketing campaigns and personalized offers to at-risk customers.	
Plants Seedling Classification - Convolutional Neural Network	
➤ Developed a deep learning model to classify images of plant seedlings into 12 distinct species using Python, TensorFlow/Keras, OpenCV, NumPy, Matplotlib ➤ Performed data augmentation (rotation, flipping, scaling) to increase dataset diversity and mitigate overfitting.	
Stock Market News Sentiment Analysis and Summarization	
➤ Developed an AI-powered system to analyse and summarize daily financial news, assessing its impact on stock prices and trading volumes. ➤ Implemented sentiment classification using advanced NLP techniques to determine the polarity (positive, negative, neutral) of news articles. Utilized word embeddings generated via Word2Vec, GloVe, and Sentence Transformers. ➤ Implemented weekly sentiment summarization using the Mistral model.
