EDUCATION

Pace University.

Master of Science in Computer Science. G.P.A: 3.71 / 4

New York, NY

August 2024 - May 2026

Work Experience

Super Auto Equipment Services | *HTML, CSS, JavaScript, React.js, Express.js, Node.js, SQL, Oracle 21c* (July 2022 – March 2023)

- Developed a custom management system using React.js, Node.js, and MongoDB, **reducing manual operations by 70%** and **improving workflow efficiency by 50%**.
- Implemented secure authentication with role-based access, streamlining inventory, scheduling, and client record management for staff while cutting manual paperwork by **over 70%**.
- Built a **scalable architecture** with React.js, Node.js, Express.js, and MongoDB, ensuring maintainability and future feature expansion for long-term operational improvements.

PROJECTS

Pharmacy Management System | *HTML, CSS, JavaScript, React.js, Node.js, SQL, Oracle 21c* (May 2024 – June 2024)

- Developed a **pharmacy management system** using React.js for interactive user interfaces, HTML/CSS for responsive design, and Node.js for server-side operations, **reducing manual effort by 60%** and improving operational efficiency.
- Implemented **inventory management** with SQL/Oracle 21c and JavaScript for real-time updates, tracking over **500 medications** and reducing stockouts by **30%**.
- Created a **prescription handling system** using Node.js and JavaScript, processing **1,000+ prescriptions** and reducing processing time by **40%**, while improving customer service through an integrated customer management system.
- Built a sales tracking module using Node.js and SQL/Oracle 21c, processing over **5,000 transactions** and improving financial forecasting by **15%**, with secure user authentication and product management features.

SKILLS

Technical Skills:

- Programming Languages:** Java (Advanced), C++ (Intermediate), C (Intermediate).
- Web Technologies:** Hyper Text Markup Language (HTML5), Cascading Style Sheet (CSS3), JavaScript, React, Oracle 21c Virtual Box, Vite, Node.js, Bootstrap, Oracle 21c, SQL, Relational Database Management System (RDBMS), Bigdata.
- Version Control and management:** Git and GitHub.

Certifications

- OpenAI API: Building frontend voice apps with Realtime API and WebRTC** February 2025
- Bigdata 101: IBM Developer Skill Network.** December 2024
- C and C++:** Advantech Computer Education Pvt Ltd. July 2024
- Fundamentals of Digital Marketing-** Google Digital Unlocked. December 2022
- AutoCAD and SolidWorks-** Cad housing Centre. January 2021

LEADERSHIP EXPERIENCE

Training and Placement Member Secretary – Engineering Club | Theem College of Engineering May 2021 – March 2022

- Planned and coordinated **15+ training sessions**, placement drives, mock interviews, and skill-building workshops, boosting student employability and achieving a 30% increase in successful recruitment outcomes.
- Assisted professors in academic tasks, facilitating exposure to advanced topics and projects for **over 100 students**, contributing to a **30% increase** in student engagement and understanding.

VOLUNTEER EXPERIENCE

National Service Scheme (NSS) | Theem College of Engineering May 2018 – March 2019

- Co-ordinated and led community service initiatives, including **5+ awareness drives**, cleanliness campaigns, youth empowerment events, and leadership development workshops, fostering social responsibility and impacting over **500 participants**.
