PROFESSIONAL SUMMARY

Master's student and data professional with **5 years of experience** delivering customer-focused solutions through **data analysis** and **reporting**. Proficient in **Python** and **Power BI**, dedicated to leading projects and nurturing **team growth** in a supportive environment that fosters success.

EDUCATION

IOWA State University- Ivy College of Business | CGPA: 3.85/4.0 **Aug. 2023 – Aug. 2025**
Master of Science in Information Systems (STEM) *Ames, IA*

Sahyadri College of Engineering and Management **Aug. 2012 - Jun. 2016**
Bachelor of Technology in Electronics and Communication Engineering *Mangalore, India*

SKILLS

Programming Languages: **SQL, Python (Pandas, Numpy, Matplotlib)**

Big Data Frameworks: **Apache Spark, Apache Hadoop**

Dashboarding and Reporting: **Power BI, Tableau, Powerpoint**

Cloud: **Azure(Azure Synapse Analytics, Azure Data Factory)**

Operations: **Service Now**

WORK EXPERIENCE

Kyndryl | Reporting Analyst **Jan. 2020 – Apr. 2022 | India**

- Automated reporting with Python and Power BI, leveraging **scheduled refresh** to cut daily report time by **1.5 hours** and boost efficiency.
- Improved high-priority ticket resolution by **10%** using Power BI **KPI visuals** to analyze Average Resolution Time (ART) and standardizing the troubleshooting workflow.
- Boosted ticket classification accuracy by **15%** using **stacked column charts** for misclassification insights, **line charts** for progress tracking, and predefined tags for better reporting.

IBM | Senior System Analyst **Dec. 2016 – Dec. 2019 | India**

- Achieved a **4.8/5** rating for clear, impactful incident reports and trend analyses.
- Created training materials and **knowledge articles**, streamlining issue resolution and saving time.
- Led a **5-member** incident analysis team, boosting productivity by **10%** and exceeding resolution SLAs.

ACADEMIC PROJECTS

- **Cloud Energy Forecasting & Emission Reduction**
Forecasted cloud computing energy usage and optimized operations, cutting CO₂ emissions by **50%**. Leveraged **Azure Databricks** and **Synapse Analytics** for ETL and analytics. Developed **LSTM, ARIMA**, and **Gradient Boosting** models to predict energy efficiency and sustainability trends.
- **Flight Delay and Cancellation Analysis**
Analyzed **2M+** U.S. flight records (2019–2023) to identify inefficiencies. Built Tableau dashboards highlighting trends like a 17-minute July delay peak and 30% faster recovery. Insights boosted on-time performance by 15% through scheduling optimizations.
