PROFESSIONAL SUMMARY

Data Analyst with 6+ years of experience in **SQL, Python, Excel, Tableau** and **Power BI**. Proven ability to automate workflows, analyze large datasets, issue investigation, deliver insights that improve accuracy, efficiency, and drove ~\$14M in revenue. Experienced in building dashboards, **leading** reporting projects, **monitoring** ETL pipelines and **partnering across teams** to enable data driven decisions.

ANALYTICS & TECHNICAL SKILLS

SQL | Python (Pandas, NumPy, Scikit-learn) | Tableau (Public, Server), Power BI (Power Query, DAX), Looker | Advanced Excel & Google Sheets | HDFS, Hive, Spark, Presto | Report Automation | ETL Pipeline | Git, GitHub, Bitbucket, Linux | Project Management: Jira, Asana, Confluence, Agile, Scrum, SDLC | Jupyter Notebook, VS Code, PyCharm | Gen AI: ChatGPT, GitHub Copilot, MS Copilot |

CORE COMPETENCIES

Business Requirement Gathering | Root Cause Analysis | Data Issue Investigation & Resolution | Problem Solving | Exploratory Data Analysis(EDA) | Statistical Analysis | Data Visualization & Storytelling | Data Collection/Cleaning/Preparation | Database Management & Data Quality | KPI Development & Tracking | Business Intelligence Tools | Forecasting & Trend Analysis | Cross-Functional Collaboration | Critical Thinking | Communication | Attention to detail | Innovation |

PROFESSIONAL EXPERIENCE

- Data Analyst - Retail, Marketing, Campaign at Uber** (Verti System) Oct 2023 - Aug 2025
- **Enterprise Reporting Solutions:** Built and managed **SQL**-based reporting for 40% strategic enterprise merchants in G/R, onboarding new accounts with reporting which improved decision making by 30%, unlocking ~\$10M in annual merchant revenue.
 - Engaged with **stakeholders** to define **KPIs**, deliver actionable insights that optimized merchant performance and drove growth.
 - **Scalable Workflow Automation:** Collaborated on **Python** automation, **SQL** based **ETL** pipelines scheduling(**cron**) in Uber's **OneMove** orchestration platform, eliminating 90% of manual work ~60hrs; accelerating delivery, streamlined merchant backfills.
 - Resolved data quality issues, escalated with Eng to improve table metrics accuracy; increased ~\$3M in revenue, and merchant trust.
 - Enabled **data sharing** contracts for G/R merchants across **US, CA** orchestrated with ProdOps, Eng; powering **in-app** email signups and **promotional** offers that supported **customer engagement** campaigns, and revenue **growth** by **20%** in **campaign ROI**.
 - Enforced **data governance** and **compliance** protocols by defined reporting standards, cadences and access controls; safeguarded sensitive customer data by excluding PII from reports and restricting sharing to approved channels only.
 - **Led** 4 analysts in migrating std, custom reports to **OneMove**, creating a centralized system with reusable **YAML/SQL** workflows, automated error alerts and **compliance** controls **cutting manual effort** and monitoring time by **40%** while improving reliability.
- Data Analyst - New Verticals Team at Uber** (Redleaf IT Systems) April 2022 - Oct 2023
- **Cross Functional Problem solving:** Partnered with DataOps, Analytics, operations, Marketing and Eng to resolve pipeline issues via **Git** for version control and **CI/CD** workflows; reduced turnaround times by **35%** and eliminated escalations in key accounts.
 - Implemented Data analysis workflows, validation frameworks for large **Hive** datasets with **10M+ rows** on **HDFS** using **presto**, reducing reporting errors to <**3%** and increasing merchant adoption through fostering trust in reporting.
 - Engineered advanced **SQL** (CTE, Join, window function) to **optimize** queries, improving reporting accuracy, saving analysis time.
 - Built **Tableau** dashboards for US, CA G/R merchants, giving stakeholders real-time visibility into **KPIs** (active stores, sales, trips, basket size, fulfillment, retention, lost sales) with **MoM** trends, helping protect ~\$50M in client annual revenue.
 - Ensured 24/7 reliability of **production** merchant reports by resolving pipeline failures, backfills; reducing **churn** risk by ~**15%**.
 - Resolved reporting issues through **root cause analysis**, cross team collaboration; ensuring accurate reporting, merchant retention.
- Healthcare Data Analyst at Infoshare Systems** July 2020 - Mar 2022
- Collaborated with clinical, operations teams to design, launch **Power BI** dashboards for KPIs to improve engagement strategies and drive **12%** increase in patient **retention**, recurring consultation revenue - **Medicare, Medicaid** and commercial payers.
 - Delivered **SQL** based patient data, visit data insights that enabled clinical teams to capture ~\$120K in **revenue** by follow up services.
 - Conducted data mining to uncover call **trends**, scheduling gaps; improving provider utilization by **15%**, driving billing volume.
 - Validated payer-level data with advanced **Excel** (VBA) enhancing accuracy, enforcing **data governance** and **compliance** standards.
- Systems Analyst at Gracenote** Sep 2019 - Dec 2019
- **Optimized** **SQL** queries to analyze media consumption datasets (**10M + rows**), reducing report turnaround by 25%, delivering faster insights into TV, digital, marketing behaviours.
 - Verified large media datasets through QA checks, safeguarding accuracy for advertising spend decisions valued ~\$12M + annually.
 - Uncovered consumer viewing **patterns** using **SQL, Excel**; guiding **marketing** strategies, improving **campaign** effectiveness.
- Teaching Assistant at University of Dayton** Feb 2019 - May 2020
- Developed **Tableau, Looker** dashboards for attendance, submissions, academic score; reducing faculty analysis time by ~**20%**.
 - Mentored 70+ students in applying **SQL, database** concepts to academic projects, strengthening their analytical, project skills.

EDUCATION

2018 - 2020	University of Dayton	Master's in Computer Science	Dayton, OH
2014 - 2018	Sathyabama University	Bachelor's in ECE	Chennai, India

CERTIFICATIONS

Amazon Web Services certified cloud practitioner - Gained theoretical knowledge in Ec2, S3, EMR, IAM
Prepzee AWS Data Engineering Certification (In Progress) - PySpark, Airflow, Kafka, Snowflake, dbt, Redshift, Sagemaker
