

MANEESHA N

Business Analyst | 5+ Years of Experience

Email: maneeshaaajobguide@gmail.com | Phone: +1 (707) 610-0287

PROFESSIONAL SUMMARY

- ❖ Business Analyst with 5+ years of experience in banking, financial services, insurance, and healthcare domains, specializing in customer journey mapping, digital transformation, and member-facing product design.
- ❖ Skilled in end-to-end journey flows, usability analysis, and experience design, ensuring seamless digital interactions across banking platforms.
- ❖ Strong knowledge in Agile frameworks, with hands-on experience in sprint planning, backlog grooming, UAT, journey visualization, and data-driven recommendations.
- ❖ Adept at using Figma, Tableau, Power BI, MS Visio, and Lucidchart to design journey maps, process flows, and visualize digital experiences.
- ❖ Experienced in analyzing click-through rates, funnel data, and user behavior metrics to identify friction points and propose actionable improvements.
- ❖ Partnered with Product Owners, Product Managers, and UX/UI designers to translate customer journeys into actionable features and optimize the digital banking experience.
- ❖ Proficient in SQL, Excel, Tableau dashboards, and report analysis for data validation, customer behavior insights, and executive presentations.
- ❖ Excellent communicator with a track record of bridging business and technical teams, delivering member-centric solutions, and enhancing customer satisfaction in digital platforms.

TECHNICAL SKILLS

Customer Journey & UX – Journey Mapping, Wireframes, User Flows, Figma, Adobe XD, Usability Testing, Accessibility (WCAG), UX Analysis

Agile & Process Management – Agile (Scrum, Kanban), PI Planning, Backlog Grooming, JIRA, Azure DevOps, Confluence, Sprint Planning, Retrospectives

Data & Analytics – Tableau, Power BI, SQL (Oracle, SQL Server), Clickstream Analysis, Data Profiling, KPI Reporting, Excel (Pivot Tables, VLOOKUP)

Business Analysis – BRD, FRD, Use Cases, Epics, User Stories, Workflow Diagrams, Swimlanes, Process Mapping (AS-IS/TO-BE), Gap Analysis, RCA

Tools & Platforms – MS Office Suite, MS Visio, Lucidchart, SharePoint, ServiceNow, REST APIs, Swagger/OpenAPI

Soft Skills – Stakeholder Management, Communication, Workshop Facilitation, Analytical Thinking, UX Sensitivity, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Client: Progressive Insurance (Jan 2024 – Present)

Role: Business Analyst | Tools: Azure DevOps, Power BI, SQL, Tableau, Figma, JIRA, Confluence

- ❖ Led customer journey mapping for provider and member portals, documenting end-to-end experiences, usability flows, and pain points.
- ❖ Partnered with UX/UI teams in Figma to refine wireframes and screen layouts, ensuring seamless member experiences across web and mobile.

- ❖ Created process flows and TO-BE journey maps in MS Visio and Lucidchart, highlighting gaps and recommending design/UX improvements.
- ❖ Utilized Tableau dashboards to track click-through rates, drop-offs, and usage patterns; identified inefficiencies and suggested improvements.
- ❖ Supported product owners in defining epics and user stories focused on improving digital customer journeys.
- ❖ Delivered executive-level PowerPoint presentations summarizing journey maps, KPIs, and recommended UX changes.
- ❖ Conducted workshops with stakeholders to align journey flows with strategic digital transformation goals.

Client: Dixon Technology (Jun 2020 – Mar 2023)

Role: Business Analyst | Tools: Tableau, JIRA, Figma, SQL, MS Visio

- ❖ Designed end-to-end onboarding journeys for digital investment platforms, mapping customer flows and identifying friction points.
- ❖ Partnered with UX teams to create intuitive onboarding flows, wireframes, and screen prototypes in Figma.
- ❖ Analyzed funnel conversion and drop-off rates using Tableau dashboards; presented insights to product managers for continuous optimization.
- ❖ Documented customer personas and journey maps to align new feature development with user needs.
- ❖ Conducted stakeholder interviews and translated requirements into user stories, epics, and process documentation.

Client: Zensar Technologies (Aug 2019 – May 2020)

Role: Business Analyst | Tools: JIRA, MS Visio, Tableau, SQL, SharePoint

- ❖ Collaborated with product managers and underwriters to design claims and policy lifecycle journey flows, improving customer digital touchpoints.
- ❖ Created workflow diagrams, swimlanes, and customer interaction maps in MS Visio.
- ❖ Built Tableau dashboards to track policy approval ratios and customer experience KPIs, ensuring alignment with business goals.
- ❖ Recommended usability improvements in agent and customer portals based on journey analysis and feedback.

EDUCATION

Master's in Information Systems – Northwest Missouri State University, Maryville, MO

Bachelor of Technology (Electronics & Communication Engineering) – SBIT, Khammam, India
