

SKILLS

- 1 SQL (SQL Server, SQL Workbench, Joins, CTEs, Window Functions)
- 2 R Programming
- 3 Tableau (Calculated Fields, LOD Expressions, Storytelling Dashboards)
- 4 Microsoft Power BI (DAX, Power Query, Power Pivot, Data Modeling) 5 Excel (ETL using Power Query, Pivot Tables, Advanced Formulas)

PROJECTS

MANUFACTURING DATA ANALYSIS – Ai Variant – Bangalore, India (Mar 2025 – Apr 2025)

- Performed ETL process using Power Query to extract, transform, and load manufacturing data from multiple sources into Excel and SQL Server.
- Applied SQL joins, CTEs, and window functions to calculate KPIs such as production efficiency and downtime analysis.
- Created pivot tables and DAX-based Power BI measures for cost and production trend analysis.
- Developed Tableau dashboards showing cost competitiveness and efficiency by product category, aiding manufacturing optimization.

SALES DATA ANALYSIS – AiVariant – Bangalore, India (Jan 2025 – Feb 2025)

- Executed full ETL workflow: extracted raw sales data, transformed using Power Query, and loaded into SQLServer, Tableau, and Power BI.
- Leveraged SQL CTEs and window functions to calculate lead conversion ratios, ranking top-performing sales executives.
- Developed DAX measures to calculate month-over-month growth, sales funnel metrics, and opportunity analysis.
- Built interactive Tableau dashboards visualizing lead source performance and conversion optimization strategies.

RENEWAL ANALYSIS FOR INSURANCE COMPANY – AiVariant – Bangalore, India (Oct 2024 – Nov 2024)

- Cleaned and transformed policy renewal datasets using Excel Power Query and automated data loading via ETL pipeline into SQL.
- Used SQL window functions and CTEs to segment customers by renewal probability and identify key risk segments.
- Created Power BI dashboards using advanced DAX measures for customer churn and renewal trend analysis.
- Developed actionable insights to prioritize executive schedules and improve renewal conversion rates.

WORK EXPERIENCE

INTERN – AiVariant – Bangalore, India (Sep 2024 – Apr 2025)

- Delivered multiple analytical projects and comprehensive reports with actionable insights.
- Developed interactive dashboards and visualizations for stakeholders using Power BI and Tableau.
- Conducted SQL-based data analysis identifying process improvements and implemented automation for recurring reports.

LEAD PRESCHOOL TEACHER – KinderCare & Kiddie Academy – Redmond, WA (Jan 2021 – Jun 2024)

- Analyzed student performance data to design individualized learning plans.
- Managed materials and supplies using spreadsheets and databases.
- Collected and analyzed parent feedback; presented progress reports to administrators.

QUALITY SOFTWARE ENGINEER – Qspiders – Bangalore, India (Jan 2013 – Jul 2013)

- Analyzed and troubleshooted software defects to identify patterns and root causes.

- Collaborated with cross-functional teams ensuring data accuracy and validation.
- Created and executed test plans to validate software functionality.

EDUCATION

Bachelor of Engineering in Civil Engineering – Anna University – Coimbatore, India (Jul 2007 – May 2011)

CERTIFICATIONS

- Data Analyst – ExcelR, Bangalore, India (Sep 2024 – Dec 2024)
- Google Finance Data Analyst Professional Certificate – Google (Sep 2022 – Nov 2023)
