267- 314-3710 maninder.bloomu@gmail.com

Experienced IT Help Desk Support professional with 4 years of expertise in troubleshooting, problem resolution, and providing exceptional customer service. Eager to leverage my technical skills and dedication to customer satisfaction while seeking opportunities to enhance my knowledge and grow in the change management field.

EDUCATION

Bloomsburg University of Pennsylvania | Bloomsburg, PA JAN 2016 – MAY 2018
Bachelor of Science – Business Administration | Concentration – Information Technology Management
GPA: 3.4 – Dean's List Award

WORK EXPERIENCE

IT FREELANCE | Remote OCT 2024 – Present

- Provided expert advice and customized solutions to clients in network management, system administration, and software integration.
- Managed IT projects from start to finish, ensuring timely delivery and client satisfaction.
- Provided technical documentation and training, improving support efficiency and user experience
- Developed and maintained comprehensive troubleshooting guides to assist clients with recurring technical issues.

Main Line Health Hospital | Bryn Mawr, PA – Senior Help Desk Analyst MAY 2022 – SEPT 2024

- Conducted a full inventory of required IT equipment and collaborated with the procurement team and vendors to place accurate and timely orders for deployment readiness.
- Partnered with project manager and department leads to define upgrade roadmap, aligning infrastructure requirements, user readiness, and deployment timelines.
- Supported troubleshooting and issue resolution during go-live, assisting clinical staff with device access and functionality.
- Logged and tracked incidents and service requests using ServiceNow and communicated resolutions to stakeholders.

Thomas Jefferson Hospital | Philadelphia, PA – Help Desk Analyst OCT 2021 – APR 2022

- Assisted with onboarding and offboarding processes, including device setup, account provisioning, and access permissions.
- Participated in weekly incident review meetings to identify recurring issues and suggest process improvements.
- Utilized tools such as Active Directory, Microsoft Exchange, and SCCM to manage user accounts, reset passwords and deploy software updates.
- Streamlined patient engagement and improved healthcare accessibility by implementing and managing Epic MyChart, enabling secure online access to medical records, appointment scheduling, test results, and telehealth.

Main Line Health Hospital | Bryn Mawr, PA – Windows 10 Implementation Analyst FEB 2019 – JUL 2021

- Upgraded over 20,000 hospital PCs and laptops from Windows 7 to Windows 10 to ensure full compatibility with Epic EMR software.
- Utilized Microsoft SCCM to automate and manage the migration of user profiles, files, and settings from Windows 7 to Windows 10 ensuring compatibility with Epic EMR and hospital IT standards.
- Supported SSO go-live by providing tier-1 troubleshooting, creating user guides, and logging issues for escalation as needed.
- Followed up with all departments to verify that all applications and workflows, including Epic, were functioning correctly on upgraded Windows 10 systems, ensuring no disruptions to user productivity.

Mercy Fitzgerald Hospital | Darby, PA – Epic Inventory Analyst JUL 2018- FEB 2019

- Supported hospital-wide Epic EMR implementation by conducting a comprehensive hardware inventory of all PCs, monitors, and peripherals across clinical and administrative departments.
- Worked closely with IT teams and unit managers to coordinate installations without interrupting patient care.

- Ensured full compliance with hospital IT policies and HIPAA regulations during all phases of hardware deployment.
- Assisted end-users with navigation, login issues, and task completion within the Workday HCM system.
