

CAREER SUMMARY

Ambitious Computer Science Master's graduate with 2 years of professional experience as an Assistant System Engineer at Tata Consultancy Services. Proficient in frontend development (HTML, CSS, Angular), backend development (Java, RESTful APIs, Microservices), and data analysis (Python, SQL, QlikView). Adept at creating scalable software solutions, troubleshooting production systems, and deriving actionable insights from data. Seeking opportunities in front-end development, backend development, or analyst roles to contribute technical expertise and drive impactful results.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java (Core & Advanced), SQL, HTML, CSS, C
- **Web Development:** Angular, RESTful APIs, Microservices Architecture
- **Frontend Development:** HTML, CSS, JavaScript, Angular, React.js.
- **Backend Development:** Java (Core & Advanced), RESTful APIs, Microservices.
- **Data Analysis & Visualization:** Python, Pandas, SQL, QlikView, Tableau, Jupyter Notebook, Pandas, Matplotlib.
- **Tools & Platforms:** AWS CloudWatch, JIRA, Postman, Git, Eclipse, Visual Studio.

PROFESSIONAL EXPERIENCE

Assistant System Engineer

Tata Consultancy Services | Aug 2021 – 2023

- Designed and maintained RESTful web services in a microservices architecture, enabling secure, high-volume data transactions.
- Developed backend functionality for critical pages (Video, Support, Dashboard) on the Standard Life UK platform.
- Conducted regular health checks and optimized application stability by leveraging AWS CloudWatch for performance monitoring.
- Led resolution efforts for critical production (PROD) incidents, collaborating with cross-functional teams to troubleshoot and minimize system downtime.

EDUCATION

Fitchburg State University, MA, USA

Master's in Computer Science (2023 - 2024)

GPA: 3.9/4

Kasireddy Narayana Reddy College of Engineering and Research, JNTU, Hyderabad, India

Bachelor's in Electronics and Communication Engineering (2017 – 2021)

GPA: 8.05/10.0

PROJECTS

- **Predictive Analytics for Healthcare** – Developed a machine learning model to analyze patient data and predict health risks.
- **Real-Time Stock Analysis** – Built a **React + Python Flask** application for real-time financial data visualization.
- **Instagram Engagement Prediction** – Created an ML model to estimate post likes and engagement based on dataset attributes.

CERTIFICATION

- Python Institute PCPP – Python Certified Professional
- **Frontend Development:** Include Angular or React courses from Udemy.
- **Backend Development:** RESTful API and Java programming courses.
- **Data Analysis:** Python-based data analytics or machine learning courses.
