Professional Summary

Software Development Engineer at Amazon (Woot.com) with a Master's in Computer Science and over 2 years of industry experience. Skilled in full-stack development with expertise in Java, TypeScript, React, Angular, AWS CDK, and RESTful APIs. Adept at designing scalable services, investigating and improving production systems, and driving new feature development. Seeking to leverage strong technical skills and creative problem-solving in software engineering and systems design roles.

Technical Skills

- **Languages:** Java (Core & Advanced), Python, TypeScript, SQL, JavaScript, HTML, CSS, C
 - **Frontend:** React.js, Angular, HTML5, CSS3, Bootstrap
 - **Backend:** Java, Spring Boot, Node.js, RESTful APIs, Microservices
 - **Cloud & DevOps:** AWS (CDK, CloudWatch, EC2, Lambda), Git, Postman, JIRA, Jenkins
 - **Data & Visualization:** Python (Pandas, NumPy, Matplotlib), SQL, QlikView, Tableau, Jupyter Notebook
 - **Tools & IDEs:** Eclipse, VS Code, IntelliJ, GitHub, AWS Console
-

Professional Experience

Software Development Engineer

Amazon (Woot.com subsidiary) – Carrollton, Texas | May 2025 – Present

- Develop and maintain scalable internal tools and web applications supporting retail operations using TypeScript, React, Node.js, and AWS.
- Enhance system observability and reliability by implementing monitoring and validation features.
- Collaborate with cross-functional teams to investigate service issues, participate in architectural and security reviews, and drive continuous improvement.
- Adhere to Amazon's best practices for coding, testing, and deployment to ensure high-quality software delivery.

Assistant System Engineer

Tata Consultancy Services – India | Dec 2021 – 2023

- Designed and supported RESTful APIs in a microservices architecture for Standard Life UK's enterprise platform.

- Developed backend modules using Java for critical platform components such as Video, Support, and Dashboard pages.
 - Utilized AWS CloudWatch for production system monitoring and troubleshooting, minimizing downtime.
 - Acted as a first responder to high-priority production incidents; led root cause analysis and cross-team resolution efforts.
-

Education

Fitchburg State University, Massachusetts, USA

Master's in Computer Science | 2023 – 2024 | GPA: 3.9/4.0

Kasireddy Narayana Reddy College of Engineering and Research, JNTU, Hyderabad, India

Bachelor's in Electronics & Communication Engineering | 2017 – 2021 | GPA: 8.05/10.0

Technical Projects

Predictive Analytics for Healthcare

Role: Data Analyst & Visualization Developer | *Tools:* Python, Jupyter Notebook, QlikView

- Built predictive models using patient data to assist hospital decision-making and operational planning.
- Developed interactive dashboards in QlikView for real-time data visualization and exploration.

Real-Time Stock Analysis Platform

Role: Project Lead & Data Scientist | *Tools:* Python, Pandas, Matplotlib

- Aggregated and visualized stock market data to enable trend analysis and forecasting.
- Engineered ETL pipelines and created Python scripts for time-series data processing.

Instagram Engagement Prediction

Role: Machine Learning Developer | *Tools:* Python, Jupyter Notebook, scikit-learn

- Created a machine learning model to predict Instagram post engagement based on hashtags, timing, and user activity.
- Delivered insights to optimize content strategies for better engagement.

Voice-Controlled Home Automation

Role: Team Leader

- Developed a voice-activated system to control home appliances using Arduino and speech recognition modules.

Portable ECG and Body Temperature Monitoring System

Role: Team Leader

- Designed a wireless sensor network for real-time patient physiological monitoring to support remote healthcare.
-

Certifications

- PCPP – Python Certified Professional Programmer (Python Institute)
- Frontend Development: Angular & React (Udemy)
- Backend Development: Java and RESTful APIs (Coursera, Udemy)
- Data Analytics & Machine Learning: Machine Learning with Python, Data Science Projects (Coursera, Udemy)
