

Manohar Krishna

Data Analyst | +1 (316) 749-9734 | guntupallimanohar.0619@gmail.com | [LinkedIn](#)

SUMMARY

Data Analyst with 3+ years of experience in **ETL automation, forecasting, and business intelligence** across technology and finance. Skilled in **SQL, Python, SAS, Databricks, Power BI, and Tableau**, with expertise in **data cleaning, warehousing, and visualization**. Adept at translating data into **financial models, product insights, and KPI dashboards** that improve forecasting accuracy, reduce costs, and accelerate executive decision-making.

SKILLS

Data Cleaning: SQL (window functions, deduplication), Python (pandas), SAS validation

Data Warehousing: Redshift, Snowflake, SQL Server, Oracle, Dimensional Modeling, ETL/ELT Pipelines

Data Visualization: Power BI (DAX, Power Query), Tableau (LOD, Parameters), SSRS, Executive Dashboards

Business & Product Analytics: Financial Modeling, Cost Analysis, KPI Tracking, Experimentation (A/B Testing)

Automation & APIs: SQL Jobs, Python ETL, API Data Integration, Workflow Automation

Cloud & Big Data: AWS (S3, EMR, Redshift), Databricks, Spark SQL

Agile Delivery: Sprint Planning, Backlog Grooming, UAT, Stakeholder Collaboration

EXPERIENCE

Data Analyst, United Healthcare Group, USA

Feb 2024 – Present

- Automated **cross-system ETL pipelines** (SQL + Databricks EMR/S3), saving **60+ hours/month** and enabling self-service analytics.
- Designed **Power BI dashboards** for finance and operations, consolidating KPIs into drill-through reports for executives.
- Built **financial forecasting models** (Python, Excel, SAS validation), improving **budget projections by 30%**.
- Conducted **A/B tests and experiment analysis**, optimizing program eligibility rules and **improving targeting precision by 28%**.
- Created **SQL query optimization strategies**, cutting runtime on high-volume datasets by **40%**.
- Partnered with finance and operations stakeholders to translate KPIs into **cost models and resource allocation insights**.
- Delivered **15+ ad-hoc analyses per sprint** to support product, operations, and leadership teams.

Data Analyst, Experion Technologies, India

May 2020 – Dec 2021

- Built **ETL pipelines** (Python/SQL) to warehouse transactional and product data (PostgreSQL + Oracle), improving query performance by **30%**.
- Performed **data cleaning and feature engineering** on 100k+ transactions, driving **18% better forecast accuracy** and **15% margin lift**.
- Developed **Tableau dashboards** for product performance, campaigns, and customer funnels, reducing reporting prep by **40%**.
- Created **predictive churn models** (logistic regression, SAS validation) to identify at-risk customers, reducing churn by **11%**.
- Produced **executive KPI scorecards** combining finance, sales, and marketing data, accelerating executive decision-making.
- Collaborated in Agile squads (planning, backlog refinement, sprint reviews) to deliver analytics features.

EDUCATION

Masters in Computer Science, Wichita State University, Wichita, KS

Jan 2022 - Dec 2023

Database Management, Data Warehousing, Compliance monitoring, Data Governance, Data Quality control, security metrics, Project management.

Bachelor is in Computer Science Engineering, Anna University, Tamil Nadu, India

Jul 2017 - May 2021

CERTIFICATIONS:

- Introduction to Cloud Computing – Coursera
- Data Analytics and Data Visualization with Power BI – Great Learning
- Fundamentals of Databricks Lakehouse Accreditation – Databricks
