PROFESSIONAL SUMMARY

Analytical and innovation-driven Data Science professional with a Master's in Computer Science and a strong foundation in statistical analysis, machine learning, and cloud-based data architecture. Demonstrated expertise in Python, SQL, Power BI, Tableau, and advanced ML frameworks (Scikit-learn, TensorFlow, PyTorch) to build robust models and extract actionable insights from complex datasets. Skilled in designing scalable ETL pipelines, optimizing data workflows, and leveraging AI-driven methodologies to solve real-world business problems. Proven ability to translate data into strategic intelligence, drive automation, and collaborate cross-functionally in fast-paced, results-oriented environments.

TECHNICAL SKILLS

- Programming & Development: Python, C, SQL, Scikit-learn, TensorFlow, Keras, PyTorch, NLP, Deep Learning.
- Data Analysis & Manipulation: Data Cleaning, Feature Engineering, Outlier Detection (Pandas, NumPy).
- Statistical Analysis & Machine Learning: Precision, Recall, RMSE, Cross-validation, Hyperparameter Tuning.
- Data Visualization & Reporting: Power BI, Tableau, Dashboards, Data Insights.
- Tools & Platforms: Jira, GitHub, Microsoft Office Suite (Excel, Word, PowerPoint), MySQL, Salesforce AWS, Azure.

EXPERIENCE

Junior Data Analyst

Cloud Integrator (d/b/a for Algorithm Inc)

September 2024 – present
Vienna, USA

- Analyzed and processed large datasets using Python and SQL to deliver actionable insights for cloud-based business operations.
- Built and maintained ETL pipelines to streamline data extraction, transformation, and loading across cloud platforms.
- Developed interactive dashboards in Power BI and Tableau, increasing visibility into project KPIs and integration performance.
- Collaborated with stakeholders to analyze trends and deliver data-driven optimizations, enhancing operational efficiency by 20%.
- Performed data validation and QA checks to ensure integrity and accuracy across systems.

Junior Data Analyst

Cyient

September 2021 – January 2022
Hyderabad, India

- Built and optimized data pipelines using Python and SQL to support rail signaling analysis for BHP's coal mine operations.
- Designed real-time dashboards in Power BI and Tableau for performance monitoring and system visualization.
- Performed regulatory compliance validation and signal design analysis using MicroStation and CFG tools.
- Delivered data-driven insights to improve safety and operational efficiency across signaling systems.
- Documented technical findings and methodologies in detailed analytics reports for audits and stakeholders.

EDUCATION

California State University, Fullerton

Master of Science, Computer Science

Fullerton, CA.

August 2022 - May 2024

K L University

Bachelor of Technology, Electronics and Communication Engineering

Vijayawada, India.

July 2017 - May 2021

PROJECTS

Soil Analysis System with DAQ and Machine Learning

Python | Machine Learning | Data Acquisition (DAQ)

- Integrated data acquisition with machine learning to predict soil properties. Utilized Arduino and a 7-in-1 soil sensor for data collection, with IoT-based monitoring. Applied machine learning models (Scikit-learn, TensorFlow) for signal processing and visualization via Flask.

AI-Powered Chatbot Development

Python | Natural Language Processing (NLP)

- Developed a chatbot to assist financial customer inquiries, reducing response times by 30%. Leveraged NLP algorithms for enhanced conversation handling and user experience. Integrated the system with Flask for seamless web deployment.

CERTIFICATIONS & OTHER EXPERIENCES

- HackerRank SQL Advanced, HackerRank SQL Intermediate, Cisco Data Analytics Essential, IBM Data Analysis Using Python, IBM Machine Learning with Python, IBM Python for Data Science, Hugging Face AI Agents Fundamentals, Databricks Generative AI Fundamentals, Salesforce AI Associate, Forage Accenture: Data Analytics & Visualization, Forage Tata Group: Data Visualization, Forage BCG GenAI Job Simulation, Forage British Airways Data Science, Neo4j Certified Professional, Neo4j Graph Data Science Certification.
- Completed Virtual Internships with Accenture North America Data Analytics & Visualization, Tata Consultancy Services Data Visualization, British Airways Data Science, Boston Consulting Group GenAI through Forage and gained practical experiences.
