WORK EXPERIENCE

Alter Domus • Indianapolis, IN

Portfolio Administration Associate

August 2024 - Present

- Managed daily administration of high-value client portfolios exceeding \$14 billion in assets, optimizing asset allocation, rebalancing, and compliance protocols, resulting in a 15% reduction in operational discrepancies and enhanced portfolio performance within 6 months.
- Acted as primary liaison for high-net-worth clients, resolving over 50 inquiries per week on portfolio performance, transactions, and account updates, achieving a 97% client satisfaction rate through precise and professional communication.
- Analyzed syndicated loan portfolios using proprietary software over a one-year period, maintaining 99% accuracy in record-keeping and compliance documentation.

Verastem Oncology • Needham, MA / Remote

Business Development and Marketing Analyst Intern

May 2023 - September 2023

- Evaluated licensing and acquisition targets via financial and demographic modeling, providing recommendations that advanced three deals to due diligence and supported \$10M in projected value creation.
- Conducted in-depth company benchmarking and account profiling using Power BI and SQL, identifying best practices for product launches that informed senior leadership decisions and contributed to a 25% increase in launch efficiency.

Business Development Intern

May 2022 - August 2022

- Researched competitor demographics and potential licensing opportunities, delivering actionable insights that supported strategic merger and acquisition decisions, identifying 7+ viable partners with a projected \$5M in potential revenue.
- Developed and launched two ShareVault databases for prospective licensees, enhancing data accessibility and streamlining due diligence processes, which reduced review times by 40% and improved collaboration across teams within 2 months.

Indiana University School of Medicine • Indianapolis, IN

Life - Health Sciences Intern

August 2020 - May 2021

- Performed qualitative and quantitative analysis on diverse medical datasets, creating tables, graphs, and reports that summarized research findings, enabling informed decision-making for researchers and contributing to the successful completion of 5+ studies with a 20% improvement in data interpretation accuracy.

Eli Lilly and Company • Indianapolis, IN

Finance Intern

June 2020 - August 2020

- Conducted comprehensive financial analyses to identify and mitigate organization-wide risk exposures, delivering targeted recommendations that reduced potential financial vulnerabilities by 15% and strengthened fiscal stability within 3 months.

EDUCATION

Indiana University - Purdue University Indianapolis (IUPUI)
