Summary

Recent Computer Science graduate with hands-on experience in software development, QA testing, and automation. Skilled in Python, Java, and web technologies. Eager to contribute to software, QA, or entry-level security roles.

Education

University of South Carolina

May 2025

Bachelor of Science, Computer Science

- **GPA:** 3.4
- **Achievements:** AWS Cloud Practitioner
- **Coursework:** Data Structures & Algorithms, Software Engineering, Algorithmic design, Advanced Programming Techniques, Operating System, Database Design, Computer Networks

Skills

- **Software Applications/Tools:** Microsoft Suite (Word, PowerPoint, Excel), GitHub, JIRA, Azure DevOps Labs, VSCode
- **Programming Languages/OS:** Java, JavaScript, C#, Python, Linux
- **Testing Frameworks/Tools:** Selenium, Postman

Work Experience

SIOS Technology Corp

Jun 2024 - Dec 2024

Software QA Engineer Intern

Columbia, SC

- Automated the SAP HANA upload process, reducing manual effort by 8 hours per upload.
- Designed, reviewed and validated over 20 test cases for various technologies, including DRBD, SAP HANA, and SPS, ensuring comprehensive test coverage and high product quality.
- Executed test suites, analyzed results, and reported defects in a detailed and timely manner, contributing to high-quality software releases.
- Streamlined testing frameworks, boosting reliability and performance.
- Collaborated in cross-functional agile teams to improve testing efficiency and quality assurance for Linux server environments.

University of South Carolina Dept. of IT

Jun 2023 - Aug 2024

Infrastructure Engineer Intern

Columbia, SC

- Developed a python-based automation tool to streamline virtual server decommissioning, enhancing cloud efficiency and speeding the decommissioning process by 80-90%.
- Provisioned Linux and Windows virtual machines, optimizing system resources such as CPU, storage, memory, and handling DNS configurations.
- Gained hands-on experience with AWS cloud services including EC2 and S3, reinforcing web application architecture principles and earning the AWS Certified Cloud Practitioner certification.

Tatum Games LLC

Apr 2024 - Jun 2024

Web Developer Intern

Remote

- Developed and optimized web application features, contributing to UI improvements and bug fixes using JavaScript, HTML, and CSS.
- Collaborated with UI/UX teams to address feedback and enhance product quality, demonstrating strong problem-solving and analytical skills.

Projects

Layout Generator

Apr 2025

Layout Generator - https://github.com/SCCapstone/Layout_Generator

- 2-part capstone project, developing a web app with Django and Materialize-CSS to transform JSON or Excel/CSV files into customizable building layouts, and generate both LaTeX code and PDF outputs.

Movie Review App

Dec 2024

Movie Review Experience - <https://github.com/Sambit096/Movie-Review-App>

- Developed a Movie Review Experience App using Microsoft .NET to enable users to browse movies, purchase tickets, and write/edit reviews, with features delivered progressively across phases.

AI Desktop Assistant

Oct 2023

GitHub - https://github.com/markj351/PC_Assistant

- Created a virtual voice assistant using Python and the OpenAI API, showcasing programming skills and integration of natural language processing.
