

Massiel Raya

Arlington, VA | 571-895-0022 | massielraya@gmail.com | linkedin.com/in/massiel-raya/

Cybersecurity professional with a background in data analytics, IT security, and risk assessment. Skilled in identifying vulnerabilities, implementing security measures, and analyzing data to support compliance and risk mitigation. CompTIA Security+ certified as of June 2025. Proficient in SQL, Python, and network monitoring to enhance security operations. Passionate about threat detection, incident response, and data protection.

RELEVANT SKILLS

Cybersecurity & IT: Network Security, Incident Response, Threat Intelligence, Vulnerability Assessment, Compliance (CITI, NIST, SOC 2, HIPAA), Security Risk Analysis, Penetration Testing (Kali Linux)

IT & Systems: System Troubleshooting, Device Imaging & Reconfiguration, Endpoint Security, Linux/Windows, Network Monitoring

Data Analytics: SQL, R, Python, Data Cleaning, Data Visualization (Tableau), Metadata Management, Microsoft Excel

Technical Tools: SIEM (Splunk), Linux CLI, Windows Server, MATLAB, Google Suite, Microsoft Office, Quip, Slack

Soft Skills: Problem-Solving, Process Optimization, Technical Communication, Documentation & Reporting, Collaboration

PROFESSIONAL EXPERIENCE

Data Collection Specialist • Amazon, Crystal City, VA 04/2022 - Current

- Secured and processed 4,000+ hours of sensitive data, ensuring compliance with data security protocols.
- Developed security-focused SOPs and troubleshooting protocols, reducing troubleshooting time by 30%.
- Troubleshoot, flashed, and reimaged devices strengthening skills in endpoint security, system hardening, and IT troubleshooting.
- Assisted in vulnerability assessments by identifying security gaps in data collection procedures.

Laboratory Associate • Holistic Industries, Capitol Heights, MD 04/2020 - 04/2022

- Conducted quality control checks on machinery and data systems, ensuring HIPAA and FDA regulations compliance.
- Maintained accurate audit records of materials and chemical processes, reinforcing data integrity and compliance practices.
- Assisted in risk analysis and compliance tracking, strengthening inventory security measures

Research Assistant • George Mason University, Fairfax, VA 11/2018 - 05/2019

- Researched AI and human decision-making vulnerabilities, analyzing potential cybersecurity threats in AI-driven environments.
- Assisted in threat modeling, identifying security weaknesses in AI behavior.
- Implemented secure data handling protocols, ensuring confidentiality and integrity of sensitive research data.

DATA ANALYSIS PROJECTS

U.S. Presidents Data Cleaning Project ([Demo Video](#) | [Dataset](#)) 06/2023

- Cleaned and analyzed a COVID statistics dataset in Microsoft SQL Server, identifying discrepancies and potential data security risks.
- Imported views into Microsoft Excel for further data validation and compliance checks.
- Created security-focused visualizations in Tableau to track system data anomalies.

Data Analytics Capstone Project ([Demo Video](#)) • Google Data Analytics Professional Certificate, Virtual 05/2023

- Imported and cleaned large datasets in RStudio, preparing data for security risk assessments.
- Developed data visualizations using ggplot2 to highlight trends and potential risks in data access behaviors.
- Created automated scripts for data integrity checks, ensuring proper handling and security of sensitive information.

CERTIFICATIONS

Correlation One • Virtual 07/2025 - 07/2028

CompTIA Security+ Certificate

Merit America • Virtual 07/2023

Google Data Analytics Certificate

- Developed expertise in data collection, transformation, security, and visualization to support data-driven decision-making.
- Completed hands-on labs and a capstone project involving data security considerations.
- Certification in Human Research & Data Ethics, covering compliance and secure handling of sensitive data

Collaborative Institutional Training Initiative (CITI) Certification • Fairfax, VA 02/2023

EDUCATION

George Mason University • Fairfax, VA 05/2020

Bachelor of Science in Neuroscience, Minored in Computational & Data Sciences

- Awarded Outstanding Neuroscience Researcher for data-driven research and analysis.
