Summary

Loti AI

Senior Software Development Engineer (SDE2) | Web Scraping & Automation (Remote)

- Designed, developed, and optimized large-scale web scraping systems, processing **millions of data points daily** across **110+ domains** using **Scrapy**.
- Built **robust, scalable, and distributed scrapers** to handle diverse website structures, complex navigation, and dynamic content.
- Integrated **Playwright** to extract data from JavaScript-heavy sites, overcoming challenges like CAPTCHAs, pop-ups, and authentication barriers.
- Implemented automation workflows to streamline data collection, minimize manual intervention, and ensure **regular data uploads** to **AWS S3**.
- Monitored and optimized the **scraping infrastructure** using **Scrapydweb**, ensuring **high availability, accuracy**, and compliance with evolving web structures.
- Managed **proxy rotation, request optimization, distributed task execution, and efficient data storage** in JSON format before uploading to AWS S3.
- Leveraged **Scrapydweb and cron jobs for task scheduling and management**, ensuring smooth and continuous operations.
- Continuously refined architectures, improved crawl speeds, and implemented **fail-safe mechanisms** for uninterrupted data pipelines.
- Passionate about **automation, large-scale data extraction, and solving complex web challenges** with high-performance solutions.

Technology Stack:

- **Web Scraping & Automation:** Scrapy, Playwright
- **Programming Languages:** Python
- **Infrastructure & Storage:** AWS S3, JSON
- **Proxy & Networking:** Rotating Proxies, Requests
- **Task Management & Scheduling:** Scrapydweb, Cron Jobs
- **Monitoring & Logging:** Scrapydweb

Urbano InfoTech Pvt. Ltd. (Remote)

May 2022 - April 2023

Junior Full Stack Developer

Responsibilities:

- Managed Cyberq SHIELD (Next Generation Cloud Security Posture Management) for Seclogic Inc. developing critical modules like Exception, RBAC, and Notification.
- Implemented front-end from **Figma Designs** using **React, HTML, CSS, JavaScript**,

Bootstrap, and Material UI for seamless user experiences, incorporating **Redux** for state management.

- Integrated **Node.js** for back-end development, enhancing system performance and scalability.
- Utilized **Git** for version control and **CI/CD** processes, maintaining project integrity and efficiency.
- Managed project tasks and workflows efficiently through **JIRA** and **Confluence**, ensuring streamlined project management.
- Conducted thorough bug fixes on the CYBERQ SHILD portal, enhancing overall user satisfaction.
- Created mock APIs in **Postman**, facilitating data interactions testing and validation.

Technology Stack:

Front-end Development:

- **React.js**
- **Node Js**
- **HTML**
- **CSS**
- **JavaScript**
- **Bootstrap**
- **Material UI**
- **Redux**

Backend Development:

- **Node.js**
- **Python**

API Development and Testing:

- **Postman**

Key Learning:

- Proficient in bug fixing and troubleshooting across the full stack.
- Experienced in UI design using **React.js, JavaScript, Bootstrap, and Material UI**, incorporating **Redux** for state management.
- Developed skills in integrating front-end with back-end systems using Node.js and Python APIs.
- Familiarity with **Git** for version control and **CI/CD** processes.
- Proficient in utilizing **JIRA** for project task management.

Additional Points:

- Demonstrated effectiveness as a third-party contractor, contributing significantly to Cyberq SHILD's functionality.
- Gained valuable experience in developing and maintaining complex software systems.
- Adaptability to changing project requirements and technologies.
- Recognized for proactive problem-solving and attention to detail.

Decurtis Corporation (On site)

Oct 2021 - April 2022

Associate Site Reliability Engineer

Responsibilities:

- Managed production incidents and provided technical support to clients within the Cruise Industry, including Disney Cruise Lines and Virgin Voyages.
- Offered **troubleshooting and debugging** assistance for web and mobile application issues related to Decurtis-developed apps.
- Utilized various tools such as **Postman, Insomnia, Instana, Dynatrace, Kibana, Offset Explorer, DBeaver, Table Plus, Charles Proxy, Mysql, Postgres SQL and Jupyter Notebooks** for monitoring, debugging, and analysis.
- Leveraged **JIRA** for incident tracking, bug resolution, and collaboration with engineering teams.
- Implemented proactive 24/7 monitoring of cruise operations, including embarkations and debarkations, to ensure a seamless process for clients and their passengers.

Key Skills and Technologies:

- Proficient in incident management and technical support within the Cruise Industry domain.
- Experienced in using a wide range of monitoring and debugging tools for efficient problem resolution.
- Skilled in utilizing **JIRA** for incident tracking and bug resolution.
- Capable of proactive monitoring and ensuring smooth operations in a 24/7 environment.

Additional Points:

- Contributed to maintaining high service reliability and customer satisfaction for clients in the Cruise Industry.
- Collaborated closely with engineering teams to prioritize and resolve incidents promptly.
- Demonstrated ability to thrive in a fast-paced, client-focused environment with a strong emphasis on reliability and responsiveness.

Ideepners Pvt Ltd (Remote)

Jan2021-Oct 2021

Python Developer

Responsibilities:

- Specialized in web scraping projects using advanced **Python** modules such as **Requests, Selenium, BeautifulSoup, and Pandas** to efficiently extract data from diverse websites.
- Demonstrated proficiency in handling various data formats including **CSV and Excel with Pandas**, employing advanced techniques for effective organization and

manipulation of scraped data.

- Utilized **SQL** databases extensively for storing and managing large volumes of extracted information, showcasing strong database management skills.
- Successfully implemented and managed crawling procedures for over **22,000 URLs daily across 39 different websites**, including industry-leading e-commerce platforms like Amazon.com, Wal-Mart, Chewy, and others.
- Handling web scraping portal – 39 sites from including big e-commerce platforms Amazon.com including its Europe and South Africa sites like amazon.it, amazon.fr, amazon.pl etc., Wal-Mart, chewy, petco.com, petsmart.com, homedepot.com, Menards.com, Meijer.com and many more.
- Proven ability to overcome challenges posed by security and policy changes on websites, employing resilient problem-solving skills to ensure uninterrupted data extraction processes.
- Actively contributed to fostering a collaborative work environment by sharing knowledge and suggesting innovative strategies for enhancing productivity and efficiency within the company.
- Developed and honed expertise in various technical areas including code optimization, bug fixing, problem-solving, reducing time complexity, and implementing anti-captcha strategies, ensuring high-quality deliverables and efficient project execution.
- Possess strong analytical skills and attention to detail, enabling accurate data extraction and analysis for informed decision-making.
- Continuously pursued professional development opportunities to stay abreast of the latest technologies and industry trends, exhibiting a commitment to lifelong learning and growth.

EDUCATIONAL QUALIFICATION

COURSE/ CLASS	SESSION	UNIVERSITY/ BOARD	INSTITUTE
B. Tech.	2014-2018	Rajasthan Technical University, Kota	Poornima Institute Of Engineering And Technology, Jaipur
XII	2013-2014	R.B.S.E.	Central Academy, Kekri
X	2011-2012	R.B.S.E.	Central Academy, Kekri

PAST EXPERIENCE (Internship)

- Completed an Internship as a Python Developer in Grras Solutions pvt. Ltd. Jaipur, from 1st Aug 2019 till lockdown April 2020 and started data science a little bit.
- Projects: - “Guesses Game”, “Rock Paper Scissor”, “Tic Tac Toe”, “Bank Application”, “File Sharing Application”, “Quiz Maker”, “Chat Application”, Tkinter(Graphical Desktop Application)- “Stop Watch”, “Color Game”, “Graphical Calculator”, API – “IDBI Movies Database”, “Open Weather”, “Odds Checker(Sports Betting)”.
- Frameworks learn: - **Flask, Django**

- Here I learn a lot of about python core and advanced including python Packages and Module, Oops Concepts, Python Advanced Functions, Web Technologies like **HTML, CSS, JavaScript, Bootstrap, Databases like SQL, Pymysql, Sqlite3 and Socket Programming, Desktop Applications Using Tkinter**, Overall here my experience is great and I want to explore my skills and Knowledge in the same.

SEMINARS AND WORKSHOPS

- Presented a Technical Seminar in Final Year on the Topic: **“Deep Web: The Dark Side of the Internet”**
- Attended seminar on “IOT” conducted by PIET, Jaipur.
- Attended seminar on Entrepreneurship and Development conducted by the college.
- Attended Web Development workshop in the College conducted by “Vision World Tech Pvt. Ltd” in 2016.

ACHIEVEMENTS

- Certificate of excellence in category of project award in 1st year with price money in 2014-15.
- Certificate of participation in a practical workshop on “Web Designing” in PIET Jaipur.
- Certification of Attending National Conference on Smart Computation and Technology “NCSCT 2016” in conjunction with Convergence 2016.
- Certificate of winning in JU Rhythm for “Cyber Bytes” (Ethical Hacking).
- Certificate for Completion of Ethical Hacking Training by Image IT Solutions, Jaipur.
- Certificate of Completion of Summer Training at “Michrons Technology”, Jaipur in PHP Technology.
- Certificate of Completion of Foundation Program under the aegis of the “Infosys Campus Connect” From PIET Jaipur in the duration of Nov 2016 to April 2017.
- Certificate of merit in course titled “RSCIT” from Jain College, Kekri.

EXTRA CURRICULAR ACTIVITIES

- Participated in the project exhibition at Poornima Institute of Engineering and Technology.
- Participated in the project exhibition at Poornima University.
- Worked as a Teacher in the Poornima Pathsala (Social Work).
- Outside Participation in JECRC University in Annual Fest JU Rhythm 2017 (Cyber Bytes).

KEY SKILLS

- Quick Learner
- Self-motivated
- Smart/Hard Working

I hereby declare that all the information contained in this resume is in accordance with facts or truths to my knowledge.
