Seattle, WA | 206 - 356 - 8893 | mayurahirrao3@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Results-driven Software Engineer with expertise in **Python, Java, Microservices, and cloud technologies**. Proven experience in developing **user interfaces** and **server-side systems** for complex applications, with a strong ability to deliver high-quality solutions in fast-paced, agile environments.

PROFESSIONAL EXPERIENCE

ITC Infotech - Boston, USA | Software Developer

June 2024 – Nov 2024

- Enhanced **PTC Navigate software** by customizing business logic and creating industry-specific components using **Java** and **JavaScript**, reducing development time
- Collaborated with **cross-functional teams** to define technical requirements, ensuring alignment with business objectives.
- Developed the **Operation Navigator** component, enabling seamless **UI** interaction with **Windchill Manufacturing Operations**, improving user efficiency. Leveraged **Java** for backend integration and **Docker** to streamline deployment processes
- Conducted **code reviews** to enforce coding standards and mentor junior developers on best practices.

PTC Software - Pune, India | Software Analyst

Aug 2021 - July 2023

- Built and deployed cross-platform solutions leveraging **Java** and **JavaScript**, improving performance and user engagement.
- Worked with relational databases (**MySQL**) and NoSQL databases (**MongoDB**) to design efficient data models and queries.
- Spearheaded the adoption of containerization technologies like **Docker**, improving deployment efficiency and scalability.
- Proposed and implemented **Kafka** queuing processing logic to replace a legacy message processing system for real-time data fetch use cases, improving processing efficiency and scalability

PTC Software - Pune, India | Intern

Sept 2020 -June 2021

- Assisted in developing backend systems and **RESTful APIs** using **Java** and **Spring**, improving system functionality and maintainability.
- Gained hands-on experience with **Agile** development methodologies, contributing to **sprint planning** and execution.

ACADEMIC PROJECTS

Play Buddy | TypeScript | Angular | Azure | [GitHub](#)

March 2024 – May 2024

- Built a sports matchmaking platform with robust **backend integration** using **MongoDB** and a scalable architecture on **Azure**
- Enhanced user engagement by deploying responsive, user-friendly interfaces and implementing **telemetry** for usage analytics - [PlayBuddy.com](#)

Ecommerce Website | NodeJS | React.js | [GitHub](#)

Nov 2023 – Dec 2023

Phrase Composing Tool Using NLP | Python

Oct 2019 – March 2021

- Developed an **AI-powered** tool for grammatical error correction using **transformer** models and **Python**.
- Published research in IEEE** and presented at the International Conference Of Intelligent Technologies (CONIT-21), contributing to advancements in NLP methodologies - [Research Paper](#)

EDUCATION

Seattle University

Seattle, WA

Master of Science in Computer Science (GPA 3.65/4.0)

Sept 2023 – March 2025

Savitribai Phule Pune University

Pune, India

Bachelor of Engineering in Computer Engineering (GPA 3.85/4.0)

Aug 2017 - April 2021

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, Dart, SQL, HTML

Databases: MySQL, MongoDB, Firebase, Floor

Frameworks & Tools: React, Angular, Flutter, Django, ThingWorx, Node.js, Express.js, Spring Boot, JUnit

Dev tools: Git, JIRA, GitLab, Docker, Maven, Confluence, VS Code, IntelliJ
