

Mayuresh Chavan

551-297-7095 | mayureshc03@gmail.com | linkedin.com/in/mayureshc/ | Raleigh, NC

EDUCATION

North Carolina State University, Raleigh, NC | Master of Engineering Management

Aug 2023-May 2025

Courses: Database Applications, Statistics for Data Analytics, Project Management, Product Management, Python for Industrial Engineering, Leadership, Applied Economics, Business Analytics Practicum, Venture Opportunity Analytics Practicum

Savitribai Phule Pune University, Pune, India | Bachelor of Mechanical

Aug 2018-May 2022

SKILLS

Technical Skills: SQL, Power BI, DAX, Power Query, Tableau, Microsoft Excel (Pivot Tables, VLOOKUP, Macros, Power Query), Microsoft Office Suite, MS Project, MS Access, PowerPoint, Visio, SharePoint, Outlook, JIRA, Confluence, ServiceNow, Salesforce, Python, R, SAS, PostgreSQL, Smartsheet, Agile (Scrum, Kanban), Waterfall, JMP, Google BigQuery, Qualtrics, Zendesk, Looker, SSRS, ETL, Data Mapping, Data Modeling (ER, Star Schema, Snowflake), API Integration (SOAP, REST, JSON, XML), SAP (S/4HANA, ERP, MDM)

Soft Skills: Business Analysis, Requirements Gathering, Gap Analysis, SWOT Analysis, Cost-Benefit Analysis, ROI Analysis, Business Process Improvement, Process Mapping, Workflow Documentation, Stakeholder Communication, Cross-Functional Collaboration, Project Management, UAT, Change Management, Strategic Thinking, Data-Driven Decision Making, Supply Planning, Vendor Management

Certifications: SQL (Skill Nation), Tableau (Udemy), Scrum Master Basic (LinkedIn), SQL Server Studio (LinkedIn), Power BI (LinkedIn)

WORK EXPERIENCE

Research Assistant, NC State University, Raleigh, NC

May 2025-Present

- Conducted data requirement analysis and evaluated 1.5K+ quiz submissions using Smartsheet and R to identify behavioural trends
- Developed Tableau dashboards to provide performance insights, improving stakeholder reporting efficiency
- Created Business Process Modeling (BPM) and documented workflow improvements to enhance data analytics processes

Business Planning Analyst, Nasoni - (Venture Opportunity Analytics Practicum), Raleigh, NC

Jan 2025-Apr 2025

- Collected and analyzed 100+ survey responses using Qualtrics and Excel to support supplier research and product development
- Performed root cause analysis and regression modeling in JMP to improve product design and market requirements
- Drafted process maps, ROI analysis, demand forecasting, performance trends, workflow documentation to improve sourcing decisions

Business Data Analytics Team Lead, Volvo - (Supply and Business Analytics Practicum), Raleigh, NC

Aug 2024-Dec 2024

- Designed Power BI dashboards to monitor KPIs (OTD, lead time, quality) using Microsoft Office Suite, reducing cycle time by 10%
- Produced detailed workflow optimization and data mapping documentation to support vendor management improvements
- Involved in data modeling, ETL processes, and prepared data integration documents based on graph requirements

Business Analyst, Atlys, Mumbai, India

Jul 2022-Jul 2023

- Directed Visa tasks for 10+ countries using SaaS based SAP ERP, CRM, MDM, improving accuracy by 20% and reducing errors by 10%
- Built Tableau dashboards tracking 5+ KPIs, reducing reporting time 25% through effective data visualization and performance tracking
- Collected and documented 1K+ cases in JIRA and Zendesk, reducing resolution time 15% via defect tracking and backlog grooming
- Wrote SQL queries for advanced reporting, automating 20% of manual tasks and improving data accuracy for decision-making
- Facilitated UAT, wrote test plans, executed test cases, and reviewed supply requirements with stakeholders, and developer teams

Business Operations Analyst Intern, Dunzo (Google-Backed Company), Pune, India

Aug 2021-Dec 2021

- Retrieved and analyzed 10K+ records using MySQL, integrating Smartsheet, Oracle ERP, and performing data mapping with requirement analysis
- Generated 10+ weekly reports in Excel (Pivot, VLOOKUP) and Google Sheets with KPI tracking and trend analysis, improving accuracy
- Developed Power BI dashboards for supply chain KPIs, with data modeling and workflow documentation, reducing stockouts by 90%
- Reviewed supply chain requirements with S&OP, stakeholders, developers, and QA teams, defined SLAs for timely, quality deliverables
- Automated reports with SSRS, conducted gap analysis, prepared UAT cases, documented AS-IS/TO-BE, recommended improvements

PROJECTS

Data Analysis and Supply Chain Management for Nike (Database Application)

- Migrated and validated datasets in SQL and MS Access, performing data flow design and analysis, improving reporting accuracy by 30%
- Constructed IDEF models and Tableau dashboards for trend analysis, KPI tracking, and operational flow design to optimize workflows

City Road Tax Collection System (Project Management)

- Designed WBS and Gantt charts using MS Project, applied Agile methods to streamline workflows, task planning, and resource allocation
- Administered project management across scope definition, risk mitigation, vendor coordination, cost analysis, reducing timelines by 25%
