EDUCATION

The Ohio State University
Bachelor of Science: Neuroscience

Columbus, OH

PROFESSIONAL EXPERIENCE

Halloran Consulting Group, Boston, MA

Sept 2023 – March 2025

Consultant, Project Associate

Customer Engagement & Strategic Enablement *Biotech/Software Client*

- *Served as day-to-day liaison for multiple client teams*, driving implementation and strategic adoption of enterprise SaaS tools (e.g., Veeva Vault), resulting in 95%+ user adoption within 90 days.
- *Led client onboarding and training sessions*, adapting materials to client use cases and functional roles; improved engagement and accelerated time-to-value.
- *Collaborated with engineering, and support teams* to address technical challenges, resolve service-related issues, and inform roadmap enhancement; acted as a diligent and trusted advisor for all customers.
- *Enabled SaaS platform deployment* through workflow re-engineering, role design, and KPI-driven change management; developed dashboards to monitor CSAT, user behavior, and to flag risks- leading to 95%+ user adoption of system/vendor in under 90 days.
- *Delivered executive level presentations* on product impact, engagement trends, and suggestions for optimization, reinforcing alignment with client goals through proactive account health reviews.

Product Strategy & Market Entry: *Diagnostics/Biotech Client*

- *Delivered go-to-market strategy* (market sizing, segmentation, positioning) leading to 10 of top 20 global pharma firms adopting the platform.
- *Synthesized 15+ stakeholder interviews into customer-centric product requirements (PRD)*- resulted in client adoption of next-gen diagnostic tool strategy.

Project Management & Optimization: *Pharmaceutical/Biotech Client*

- *Delivered ~20% cost savings and ~10% trial acceleration* by leading 6 strategic vendor selection workstreams (QMS, LMS, CRO) built on competitive benchmarking and financial modeling; achieved 100% client adoption of proposed vendors.
- *Enhanced cross-functional decision-making* by developing real-time dashboards and conducting data driven gap analyses to proactively manage recruitment, budget, and timelines.

The Ohio State University, Columbus, OH

Aug 2022 – Sept 2023

Head and Neck Cancer Clinical Research Associate

- *Collaborated with R&D team for development of novel oncology diagnostic tool* and facilitated focus groups, clinical interviews, and created PRD for first-gen product development.
- *Managed end-to-end study operations* (protocol design, patient recruitment, ICF, data management) for three investigator-initiated trials; published findings in peer-reviewed oncology journals.
- *Built REDCap dashboards tracking enrollment, budget burn, and milestone variance*—reducing cycle-time bottlenecks 30 % and elevating department visibility with leadership.
