PROFESSIONAL SUMMARY

Manual QA Engineer with 2 years of experience testing web applications. Skilled in manual testing, user acceptance testing (UAT), and regression testing. Proficient in creating detailed test plans and cases, identifying and documenting defects, and collaborating with cross-functional teams to ensure software quality. Experienced in SDLC, Agile methodologies, and defect tracking tools like JIRA. Familiar with SQL, SAP BW/HANA, and MS Suite. Committed to delivering high-quality products through proactive communication and efficient testing processes.

PROFESSIONAL EXPERIENCE

Quality Assurance

Capgemini

Bangalore, Telangana (Dec 2021-Jul 2023)

- Worked as a Quality Assurance for a Daimler Truck Innovation Center India (DTICI) client.
- Delivered 99.9% bug-free web applications to clients through rigorous manual testing.
- Successfully delivered 25+ projects with 100% client satisfaction in a span of 2 years.
- Collaborated with business stakeholders and developers to define test requirements and UAT criteria.
- Reviewed discovery documents to identify source applications and existing integrations.
- Created comprehensive test plans and detailed test cases covering positive, negative, and edge scenarios.
- Executed manual test cases and documented results for functional, usability, and regression testing.
- Conducted User Acceptance Testing (UAT) and gathered sign-off from business teams.
- Logged and tracked bugs using JIRA and Excel; followed up with developers for resolution.
- Escalated roadblocks and critical issues to management for timely intervention.
- Participated in Agile ceremonies including sprint planning, retrospectives, and daily stand-ups.
- Followed the Software Development Life Cycle (SDLC) and Agile methodology to ensure efficient and effective testing processes.

PROFESSIONAL PROJECTS

Daimler Truck Innovation Center India (DTICI) Dec 2021 - July2023

As a Quality Assurance (QA) professional, I engaged daily with clients to gather new requirements and ensure their needs were met. Analyzed business requirement documents for multiple applications and prepared detailed Excel documents for test cases. This included both User Acceptance Testing (UAT) and Development test cases. Reported bugs to developers and prepared comprehensive bug report documents to identify the severity and priority of issues. Throughout the project, JIRA software and Excel utilized it to manage and track testing activities efficiently.

Accenture North America Data Analytics and Visualization Job Simulation on Forage - July 2024

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture
- Cleaned, modelled and analyzed 7 datasets to uncover insights into content trends to inform strategic decisions
- Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders
