

MEERA AMIN (she/her)

meeraamin98@gmail.com | +1 862-414-1955 | New Jersey, USA

Summary

Detail-oriented clinical research and healthcare professional with experience in patient care, administrative support, and clinical trial operations. Skilled in data accuracy, regulatory compliance, and audit readiness, with a strong track record of resolving discrepancies and streamlining study workflows. Proficient in managing patient records, performing diagnostic tests, and assisting with medical procedures. Advanced in Microsoft Office with excellent organizational, multitasking, and communication skills, recognized for a proactive approach and commitment to accuracy and efficiency.

Experience

Jun 2025 – Current | Clinical Research Data Coordinator | Astera Cancer Care | East Brunswick, NJ

Improve data accuracy and integrity by collecting, validating, and managing clinical trial data across multiple systems, reducing discrepancies and delays. Ensure 100% audit readiness by maintaining regulatory documentation and study files in compliance with GCP and IRB requirements. Resolve data discrepancies efficiently through proactive monitoring and collaboration with research staff, accelerating study timelines. Strengthen study operations by coordinating with investigators, sponsors, CROs, and regulatory bodies to streamline communication and data flow. Enhance analysis quality by preparing clean, validated datasets and reports that supported timely statistical evaluation and decision-making.

Nov 2022 – Feb 2025 | Lead Clinical Assistant II | TKL Research | Fair Lawn, NJ

Ensured compliance with study protocols, Good Clinical Practice (GCP), and Standard Operating Procedures (SOPs) to maintain data integrity and regulatory readiness. Supported coordinators with regulatory binders, study documentation, and requirements for audits, inspections, and sponsor reviews. Assisted in study start-up, execution, and close-out activities, contributing to efficient trial operations across all phases. Performed quality checks on study paperwork and Electronic Data Capture (EDC) systems to ensure accuracy and completeness. Maintained subject enrollment logs and managed participant reimbursements in a timely and compliant manner.

Jul 2021 – Jan 2022 | Medical Assistant | PM Pediatrics | Springfield, NJ

Prepared patients for examinations, performed vital sign checks, and documented patient health histories. Conducted COVID-19 tests, strep tests, in-house laboratory tests, and assisted with nebulizer treatments. Supported providers with various procedures, including wound irrigation, suturing, and suture removal.

Jan 2018 – Jan 2021 | Receptionist | Dr. Chaudry's Office | Fair Lawn, NJ

Managed front desk operations by answering and directing phone calls, scheduling appointments, and handling patient check-in and check-out. Collected and verified patient information, updated medical records, and ensured completion of required forms and documentation. Coordinated referral processing and arranged laboratory services to support continuity of patient care.

Education

May 2021 | Bachelor of Science in Neurobiology | Minor in Psychology Rutgers University – School of Arts and Sciences | Newark, NJ

Certifications

Nov 2023 - Current | Good Clinical Practice | Certified by NIDA Clinical Trials Network

Technical and Key Skills

- Proficient in Electronic Data Capture (EDC) systems (DSG, Medrio, Veeva Vault) and Microsoft Office Suite for clinical trial data management and validation.

- Knowledgeable in Good Clinical Practice (GCP), FDA regulations, and protocol adherence to ensure study compliance and integrity.
- Experienced in quality assurance/quality control, performing data checks, and maintaining accurate study documentation.
- Strong communicator, collaborating effectively with multidisciplinary teams, study participants, and external stakeholders.
- Skilled in prioritizing tasks, following instructions, analytical problem-solving, and maintaining attention to detail while balancing team and individual responsibilities.
