Tools & Technologies: Salesforce, Google Sheets, Alteryx, Power Query, Microsoft Power Automate

Soft Skills: Analytical Thinking, Attention to Detail, Communication, Time Management, Problem-Solving, Adaptability, Leadership, Negotiation

EXPERIENCE

Morgan Stanley, USA | Financial Analyst

Jan 2025 - Current

- Lead the financial planning & analysis (FP&A) process, including budgeting, forecasting, and variance analysis, supporting high-level decision-making across the organization.
- Delivered in-depth financial modeling and DCF analysis to assess investment opportunities and optimize capital allocation.
- Spearheaded automation of monthly financial reporting, reducing reporting time by 30%, and improving decision-making speed.
- Created dynamic dashboards in Power BI for executive leadership, enabling real-time tracking of key financial metrics and KPIs.
- Provided actionable cost optimization insights that resulted in a 15% reduction in operational expenses year-over-year.
- Played a key role in SOX compliance, ensuring financial processes and reports adhered to regulatory standards.
- Partnered with cross-functional teams to implement financial automation tools, boosting accuracy and operational efficiency by 20%.
- Collaborated with auditors to document opening balance sheets and update Hyperion Enterprise by company.
- Managed financial planning and monthly close processes, delivering analysis that influenced executive decisions and improved performance.
- Developed and maintained financial models that improved accuracy of revenue forecasts by 15%, contributing to more precise budgeting.
- Managed monthly forecasts and month-end closing, analyzing financial results against forecasts/budgets to identify P&L opportunities and risks.

Cybage Software, India | Financial Analyst

March 2020 - Nov 2022

- Supported monthly and quarterly forecasting cycles, ensuring timely updates and accurate budget vs. actual variance analysis.
- Assisted in the development of 3-statement models for financial forecasting, leading to improved strategic planning for future growth.
- Conducted in-depth sensitivity analysis to evaluate potential financial impacts and risks associated with business decisions.
- Developed and streamlined reporting processes, automating repetitive tasks and enhancing the overall productivity of the finance team.
- Worked closely with leadership to present financial insights and improve decision-making across departments.
- Conducted financial data analysis using Excel and SQL, providing support for financial audits and ensuring compliance with internal controls.
- Provided financial insights that contributed to a 10% increase in sales growth through market trend analysis and competitor benchmarking.
- Managed financial operations using QuickBooks for a mid-sized firm, ensuring accurate tracking of expenses, revenues, and invoicing, which improved cash flow management by 12%.
- Implemented internal control protocols, reducing audit discoveries by 25% and ensuring GAAP compliance.
- Performed in-depth financial analysis using Excel and Tableau to evaluate key financial metrics such as revenue, expenses, and profitability, leading to a 10% reduction in overspending through cost optimization strategies.
- Developed dynamic dashboards using SQL Server to enhance data visualization, improving financial insights for senior management.
- Optimized ERP systems to streamline accounting processes, reducing manual errors by 20% and monthly closing time by 15%.
- Delivered accurate financial recommendations through complex model analysis, enabling informed, forward-looking decisions by management.
