PROFESSIONAL SUMMARY

Detail-oriented Medical Coding and Billing Specialist with 3+ years of hands-on experience in ICD coding, HCC coding, claims data analysis, and regulatory compliance (HIPAA, CMS). Adept at improving documentation accuracy, supporting billing operations, and reducing claim rejections through quality assurance practices. Proficient in EMR systems (Epic), coding audits, and healthcare data analytics. Currently pursuing a master's in healthcare informatics, combining coding expertise with data-driven insights to support clinical and operational goals.

TECHNICAL SKILLS

- Medical Coding: ICD-10, HCC, CPT (beginner), DRG (awareness), Claims Review
- EMR Systems: Epic (Proficient), EHR workflow understanding
- Billing Systems: Familiar with Medicare/Medicaid claims processes
- Data Analytics: SAS, Excel (Advanced), SQL (Basic), R (Basic), Python (Learning)
- Reporting & Visualization: Tableau (Beginner), Power BI (Beginner)
- Compliance: HIPAA, CMS Guidelines, Quality Assurance
- Other Tools: MS Office, Google Workspace

PROFESSIONAL EXPERIENCE

EPISOURCE- HCC Medical Coder

Vijayawada | Nov 2021- Dec 2023

- Accurately coded Medicare/Medicaid patient charts using ICD-10 for HCC risk adjustment with over 98 % accuracy.
- Partnered with clinicians to enhance documentation, reducing incomplete coding cases by 15%.
- Conducted QA audits to minimize denials and improve claims processing timelines.
- Assisted in interpreting trends from coded data to support clinical quality and performance reporting.

LIFELINE FORMULATIONS- QA/QC

Vijayawada | Nov 2020- Oct 2021

- Monitored pharmaceutical production and ensured documentation compliance with regulatory standards.
- Developed SOPs for quality testing aligned with audit requirements.
- Ensured accurate record-keeping supporting the integrity of regulated healthcare manufacturing.

EDUCATION

Harrisburg University- Master's in healthcare informatics

May 2024- Dec 2025 | GPA: 3.6

NRI college of Pharmacy- Bachelor's in pharmacy

August 2016 – September 2020 | Percentage: 68.76

TECHNICAL PROJECTS

Epic EMR Implementation Plan

Epic implementation plan includes planning, challenges, training, governance, mitigation strategies, engagement, and testing. Metrics demonstrated Epic's effectiveness, improving decision support, efficiency, and patient satisfaction at El Camino.

Antibacterial Plant Study

Conducted in-depth research on plant species exhibiting antibacterial properties and analyzed their pharmaceutical applications

Weightless Backpack Research

Explores innovative design principles and experimental methodologies for developing a "weightless" backpack, utilizing ergonomic analysis, material science, and potential AI-assisted load redistribution techniques.

CERTIFICATIONS AND ACHIEVEMENTS

- Research Study Design Certification- CITI Program (2025)
- Base SAS Programming – Coursera & SAS Institute (2025)
- Research Poster Presentation – Nirmala College of Pharmacy (2019)
- Pharmacovigilance Workshop – Vignan University (2019)
- Research Article Published – International Journal of Current Advanced Research (2019)
- Participant – IPA National Student Congress (2019, 2020)
