Work Experience

Almac Group

Durham, North Carolina

Global Business Systems Adoption, Clinical Services

Product Support Specialist II

November 2024 - Current

- Act as a main point of contact for electronic health data workflows, handling Freshworks tickets, SFTP/FTP file transfers, web services, and setting up CSV medication and member number lists to support daily operations
- Serve as a Super User for Clinical Trial Gateway access, managing user accounts, permissions, and ensuring compliance with company and regulatory standards
- Support and optimize the use of Oracle COSMOS applications and temperature monitoring systems by gathering requirements, mapping workflows, and suggesting improvements that help teams work more efficiently
- Write and run SQL queries to analyze data, troubleshoot issues, and reconcile discrepancies to maintain accuracy and integrity in healthcare data
- Troubleshoot user access, EDI, and connectivity issues, working closely with IT teams and vendors to make sure problems are resolved quickly and within SLAs
- Coordinate testing and rollouts for system updates and new implementations, making sure everything runs smoothly from planning through deployment

Product Support Specialist I

January 2024 - November 2024

- Identified workflow inefficiencies and provided system-based solutions in coordination with end users
- Developed SOPs and knowledge guides to enhance usability of internal EMR applications
- Conducted routine quality checks on clinical data and validated software releases for functionality integrity

Harris Teeter Pharmacy

Cary, North Carolina

Pharmacy Technician II

May 2023 - January 2024

- Efficiently process and filling over 200 prescriptions each day, while integrating data for Electronic Health Records (EHR) to ensure medication accuracy and patient safety
- Conducted insurance verification and claims processing while maintaining compliance with HIPAA and HIM standards
- Facilitated medication data audits and documented visual quality issues affecting scanned records or EHR readability

American Red Cross

Raleigh, North Carolina

Database Systems Management Intern

August 2023 - December 2023

- Proficient in utilizing tools, systems, and processes for the management of volunteer data for a youth population of 1,172 volunteers
- Providing training to over 200 youth members on internal volunteer data systems while assisting over 50 youth clubs in North Carolina
- Analyze data reports to identify missing information and interpret volunteer logs, resulting in the successful identification of schools achieving an 80% participation rate
