- Positive Attitude

Data Analyst with experience in SQL, Python, and Google Sheets/Excel for data cleaning, reporting, and visualization. Contributed to Omdena projects in education funding and mental health AI. Strong background in Aeries SIS queries, PowerShell automation, and IT support across multiple school sites. Currently completing the Google Data Analytics Certificate to advance skills in applied analytics and dashboards.

WORK HISTORY

March 2025 - Current

Data & AI Projects - Volunteer Collaborator *Omdena*, Omdena (Remote)

- Cleaned and preprocessed unstructured datasets (PDFs, URLs, dialogues) for AI chatbot and education funding projects.
- Researched global education financing models to support a blockchain-based platform for underserved students.
- Built structured data tables and supported model development for cultural and ethical alignment.

October 2024 - May 2025

Ignite Technology Specialist *Police Activities League*, Modesto, California

- Created a Google Sheets checkout system, improving device tracking and reducing errors.
- Compiled device usage reports to ensure equitable student access.
- Introduced students to coding with Microbit MakeCode and Lego Spike.

August 2021 - Current

Computer Support Technician *Stanislaus Union School District*, Modesto, CA

- Ran SQL queries in Aeries SIS to track students and devices, producing reports for administrators.
- Automated CSV reports with PowerShell to analyze logins and system specs.
- Managed IT inventory in Google Sheets to improve replacement planning.
- Configured devices and apps through Google Admin and Jamf for 5 school sites.

EDUCATION

August 2018 - May 2021

Bachelor of Science Business Computer Information Systems
California State University, Stanislaus, Turlock, CA
