Summary

- **Data Engineer** with around 5 years building cloud-native **Enterprise Data Systems (EDS)** and analytics platforms across retail, finance, and technology domains.
- Designed **high-throughput data pipelines** with **PySpark, Databricks (Delta/Delta Live Tables), Airflow, Snowflake, AWS Glue**, processing multi-terabyte workloads reliably.
- Built **real-time and batch architectures** using **Kafka, Spark Streaming, S3, Synapse**; delivered cost-efficient, auditable data products.
- Implemented **CI/CD & platform automation** with Docker, Jenkins, GitHub Actions, standardized promotion, rollback, and blue/green deployments.
- Partnered with ML teams on **feature stores, MLflow-based retraining, and FastAPI inference services** to operationalize AI at scale.
- Established **data governance & DQ frameworks** (Great Expectations, Glue Catalog, RBAC), enabling lineage, schema enforcement, and SLA adherence.

Education

Illinois Institute of Technology

Chicago, IL

Master of Science in Information Technology and Management (GPA 3.7/4.0)

- Coursework – Big Data Analytics, Distributed Systems, Cloud Computing, Machine Learning

Experience

Nike – Enterprise Data Platform

Chicago, IL

Data Engineer

June 2024 – Present

- Developed & automated **PySpark + Airflow** ELT pipelines ingesting 3 TB+/month of omnichannel retail data into **AWS S3 & Snowflake**.
- Designed **Delta Live Tables** for incremental loads & schema evolution cut refresh times by **45%**.
- Implemented **Kafka + Spark Streaming** for real-time sales/inventory feeds powering predictive dashboards.
- Built enterprise **DQ & governance** with **Great Expectations + Glue Catalog** to enforce 100% schema compliance & lineage.
- Deployed **FastAPI + MLflow** services for demand forecasting & pricing optimization, enabling automated retraining.
- Delivered stakeholder-ready **Power BI** KPIs across 20 regions standardized definitions & drill-through analytics.

Infosys – Enterprise Data Solutions Group

Hyderabad, India

Data Engineer

Feb 2022 – Jul 2023

- Built **Databricks + PySpark** pipelines consolidating ERP/CRM data into **Snowflake** for finance & operations analytics.
- Engineered **AWS Glue + Lambda** ingestion with event triggers improved batch reliability by **40%**.

- Modeled conformed dimensions & fact tables accelerated BI development in **Power BI & Tableau**.
- Automated promotions with **Jenkins, Docker, GitHub Actions**, reduced manual work by **50%**.
- Mapped data lineage & implemented **RBAC** to meet compliance & segregation-of-duties standards.
- Led offshore DQ team, sustained **99.8%** accuracy across daily production loads & SLA windows.

Cognizant Technology Solutions

Data Engineer

Hyderabad, India

Mar 2020 – Dec 2021

- Developed **Azure Data Factory** pipelines migrating on-prem Oracle data to **Azure Data Lake & Synapse**.
- Built dynamic, parameterized pipelines as a reusable ETL framework across multiple business units.
- Implemented **schema drift detection & alerting**, reducing overnight load failures by **30%**.
- Conducted data profiling & validation on 1 TB+ financial datasets, standardized anomaly playbooks.
- Delivered certified datasets for executive dashboards, improving trust & time-to-insight.

Key Projects

AI Project

Python • PyTorch • MLflow • Databricks • Power BI

- Developed LSTM/Prophet models for retail demand, integrated with Delta pipelines, reduced forecast error by **28%**.
- Automated retraining & model registry via **MLflow**, exposed KPIs in **Power BI** for real-time planning.

Technical Skills

- **Languages:** Python, SQL, PySpark, Bash, Java
- **Data & Orchestration:** Databricks (Delta, **DLT**, Jobs), Apache Airflow, **dbt**, Azure Data Factory, AWS Glue, Step Functions
- **Streaming & Messaging:** Apache Kafka, Spark Streaming, Kinesis (basics)
- **Databases:** PostgreSQL, MySQL, SQL Server, MongoDB, DynamoDB
- **Cloud & Storage:** AWS (S3, Glue, Redshift, ECS, Lambda), Azure (Data Lake, Synapse), **Snowflake**, GCP
- **Data Quality & Governance:** **Great Expectations**, Glue Catalog, RBAC/ABAC, Lineage, Audit, PII handling
- **DevOps & CI/CD:** Docker, Jenkins, GitHub Actions, Blue/Green Deploys, Infra-as-Code (IaC basics)
- **Analytics & Viz:** Power BI, Tableau, Looker, QGIS/ArcGIS KPI design, drill-through & semantic layers
- **Core Concepts:** Dimensional Modeling, Lakehouse, Cost Optimization, Caching/Partitioning/Z-Order

Certifications

- **AWS Certified Data Engineer**
- **Microsoft Azure Data Engineer Associate**
