CURRENT ADDRESS

Branford, Connecticut 06405

PERMANENT ADDRESS

Branford, Connecticut 06405

Computer Science student seeking challenging and rewarding opportunities that will allow me to utilize my leadership and communications skills while benefitting the company. A well-accomplished **computer science professional** with extensive experience and demonstrated success in achieving productivity, and achievement of goals. Dynamic career with strong communication, problem-solving, planning, teambuilding skills. A respectful, reliable, team-oriented, open-minded individual with proven ability to multi-task and perform well in a fast-paced environment across portfolio of projects.

EDUCATION: Southern CT State University – New Haven, CT
Bachelor of Science in Computer Science Minor: Communication
Graduation Date: May 2025

Computer Ethic	Software Design and Development	Theory of Programming Languages
Operating System	Algorithm Design and Development	Discrete Math for Computer Science
Computer Organization	Internet Programming	Distribution & Parallel Computing

TECHNICAL AND NON-TECHNICAL SKILLS:

- Fluent in English, Sinhala, Tamil
- Python, Java, C/C++, Assembly Language, R, MATLAB, Octave, SQL, HTML, CSS, JavaScript, TypeScript, Linux, OpenCV, PyTorch, TensorFlow, Keras, Scikit-learn, Pandas, Algorithms and data structures, Artificial Intelligence, Machine Learning, Deep Learning, Digital Image Processing, GANs, Facial Recognition, Computer Vision, 3D Game Design, 3D Graphics, Computer Graphics, Photoshop, Illustrator, InDesign, Unity, Blender, Scientific Computing, Computer Systems Programming, Algorithmic Trading, Cryptography, Digital Photography, Data analysis, Statistics, Arduino, Git, GitHub, Agile/Scrum Methodologies, MxLinux

PROFESSIONAL EXPERIENCE:

Gulf Gas **Data Analyst** **Apr 2022 - Mar 2024**

- Presented data insights to non-technical stakeholders, resulting in a **20%** increase in stakeholder satisfaction scores.
- Leveraged Python and R to conduct advanced statistical analysis, leading to a **15%** improvement in data accuracy.
- Forecasted future sales and inventory needs using statistical tools, contributing to a **10%** reduction in inventory holding costs.
- Developed visualizations such as charts and graphs, improving stakeholder understanding and decision-making efficiency by **25%**.
- Proactively stayed updated on analytics technologies, resulting in a **30%** increase in data analysis efficiency.

PROJECTS/RESEARCH:

Software Design and Development **Sep 2023 - Dec 2023**

- Engineered a dynamic stock tracking web application as part of a software development class project, integrating MySQL, JavaScript, HTML, and CSS for seamless real-time stock performance monitoring and analysis.
- Designed and implemented a robust stock tracking solution leveraging MySQL, JavaScript, HTML, and CSS, resulting in improved user experience and data accuracy.
- Created a user-friendly stock tracking web application using MySQL, JavaScript, HTML, and CSS, enhancing accessibility, and enabling efficient analysis of stock performance in real-time.
- Spearheaded the development of a cutting-edge stock tracking web application, employing MySQL, JavaScript, HTML, and CSS to deliver a highly intuitive platform for monitoring and analyzing stock performance with precision.

LEADERSHIP:

- Led and managed all aspects of fraternity operations, including strategic planning, budget management, and member development.
- Oversaw and coordinated executive board meetings, chapter meetings, and events to ensure alignment with fraternity goals and values.
- Fostered a positive and inclusive fraternity culture by promoting teamwork, respect, and accountability among members.
- Represented the fraternity in campus-wide events, meetings, and collaborations with other student organizations and university administration.
