EDUCATION

Master of Data Analytics , Specialization in Big Data Systems	Dec'24
Pennsylvania State University, Pennsylvania	GPA - 3.90
Bachelor of Technology , Computer Science	Jun'21
SRM Institute of Science and Technology, India	

TECHNICAL SKILLS

BI & Reporting: Power BI, Tableau, Excel, Azure Dashboards, Alteryx, Qlik, DAX, Power Query
Databases & Querying: SQL Server, PostgreSQL, Snowflake, Redshift, Azure SQL, MySQL, OracleSQL
Programming: Python (Pandas, NumPy), R, MATLAB
ETL & Data Tools: Azure Data Factory, Microsoft Fabric, Airflow, Delta Lake, SSIS, Dataiku
Cloud Platforms: Azure Synapse, Azure Data Lake Gen2, AWS Glue, S3, ECS
DevOps & Automation: Git, Docker, Azure DevOps, Apache Spark, Lambda, OAuth 2.0

WORK EXPERIENCE

Business Intelligence Analyst | XNODE Inc | Westport, CT Jan'25-Present
Tools: Apache Spark, Python, Lambda, S3, CloudFormation, Redshift, IAM, Step Functions, ECS, SageMaker, Agile

- Built scalable data pipelines using AWS Glue and S3, processing over 10TB of structured data for analytics dashboards in Power BI, reducing latency by 35% and supporting real-time reporting needs
- Migrated large datasets to Snowflake using Apache Iceberg, optimizing metadata and query performance—resulting in a 40% improvement in analytical query speed for business intelligence workloads
- Implemented robust data quality checks in Dataiku, creating 12+ custom validation rules that reduced data errors by 30% and improved stakeholder confidence in reporting accuracy
- Enhanced fault tolerance in AWS Lambda ETL workflows by adding retry logic and delay handling for failed API calls, ensuring reliable data delivery for time-sensitive reporting environments

Data Engineer | Kreischer Miller | Philadelphia, PA Sep'23-Dec'24
Tools: Azure Functions, Azure ML Studio, SQL, Azure Blob Storage, Azure DevOps, SSH, Delta Lake

- Partnered with business analysts and manufacturing leads to orchestrate end-to-end data pipelines via Microsoft Fabric and Azure Data Factory, slashing manual reporting by 40% and enabling real-time insights
- Scaled data ingestion pipelines from pilot to full production, handling over 500 GB of daily transactional data across client plants
- Troubleshooted and resolved pipeline failures and data quality issues by implementing validation checks and monitoring within SQL and Fabric workflows, reducing reporting errors and improving decision-making speed by 25%

Business Intelligence Developer | Tata Consultancy Services | Bangalore, India Jun'21- Jul'23
Tools: PowerBI, DAX, PowerQuery, T-SQL, SSIS, Time series models, Data Analysis, Research, KDB

- Optimized SQL Server queries and stored procedures, improving database performance by 50% and reducing data retrieval time by 75%
- Designed and executed ETL workflows to support cloud migration from on-premise systems to Azure Data Lake Gen2 and Azure Synapse Analytics
- Built interactive Power BI dashboards by integrating data from Azure DevOps and transforming it with Power Query and DAX, automating reporting processes and enabling project managers to reallocate 15 hours weekly to strategic planning, improving project delivery times

PROJECTS

Sales Insights Optimization – End-to-End BI Reporting Platform Mar '24 - Apr'24

- Developed a dynamic Power BI dashboard using Azure Synapse and DAX to analyze \$100M+ in simulated retail sales, enabling leadership to monitor KPIs like profit margin, churn, and regional performance in real time
- Automated ETL workflows using Azure Data Factory and Data Lake Gen2 to refresh multi-source data daily, reducing reporting latency by 70% and eliminating manual data prep
- Implemented row-level security and role-based access controls, empowering over 20 business users to access tailored insights and driving a 60% reduction in ad hoc report requests

CERTIFICATIONS & ACCOLADES

- Awarded **Penn State Vice Chancellor's Scholarship** worth **\$24,000** in financial support
- Snowflake Certified: **SnowPro Core Certification**
- Microsoft Certified: **Azure Solutions Architect Expert (AZ-305)**
