

Mohammad Kamal

Software Engineer

Brooklyn, NY 11226

mkamal0035@gmail.com - (347)-279-2257

- * Extensive experience on every phase of Software Development Life Cycle with different model.
- * More Than 12 years in IT field. Specifically more than 7 years on C# .NET Language and MS Sql Server.
- * High efficiency in Software Engineering with optimistic project management skill.
- * Recurring experience in hands-on implementation of custom Server Side Script, Client Side Script, Web pages, Web Templates, Workflows, Timer Jobs, RSS Feed, Web Services.
- * Experienced in Agile driven projects with constant and fast deliverables.
- * Experienced in Test Driven Development using NUnit, nInject etc.
- * Experience working with Microsoft Visual Studio 2005/2008/2010 using ASP.Net(Web Form & MVC), C#, ADO.Net on Microsoft .Net Framework 2.0/3.0/3.5 And Microsoft SQL Server 2000/2015/2008 R2/2014.
- * Experience in Design and Development of User Interfaces using HTML, JavaScript, CSS, ASP.Net, XML and AJAX.
- * Experience in maintaining Security and Permissions to control the access to SQL Server and other .Net related environment.
- * Experience on Active Directory, IIS Configuration.
- * Experience with .Net Server Controls, Data Grid Web Control and Form Validation Controls in ASP.Net.
- * Expertise on ADO.Net components such as Data Sets, Data Adapter, Data Reader, Data View, Data Table.
- * Recurring experience in managing and tracking the development progress of on-site and off-shore development teams.
- * Knowledge on different type of design pattern like Abstract Factory, Singleton, Prototype, Bridge etc.
- * Experience on working with Svn, GitHub, Visual Studio Team System, Visual Source Safe as source control.
- * Experience in Database Designing i.e. ERD, SQL DDL, SQL DML and database tuning and Database monitoring with job, event tracking etc.
- * Experience in Domain Analysis with Context Diagram, Logical DFD, Physical DFD, UML like Class Diagram, Sequence Diagram, State Chart Diagram using Rational Rose etc.
- * High interest on various Open Source Development like Cam Studio, Orchard etc.

WORK EXPERIENCE

Programmer

InsightSurf - Brooklyn, NY -

October 2015 to Present

- Joined as programmer for customizing various open source project for example Orchard, CamStudio, NopCommerce.
- Fixing Bug and planning and placing new changes.

- Planning, Developing & designing database architecture for new requirements and migrating data from old database architecture if required.
- Database Query, Report Design.
- Develop third party source Connectivity through API .
- Planning the system to ensure all accountability among all team member for Database DML query & source code using source control.
- Weekly online meeting attended with reporting boss about the progress of the work
- Asp.Net(MVC), C# .Net, Sql Server2008 R2, Crystal Report, XML, VSS, NUnit, nInject used there.

Software Engineer

E 2 E Technology Ltd - Dhaka -

May 2012 to September 2015

- Joined as a team leader to maintenance team for already developed Back Office Software System which basically support all activity as for a Stock Exchange's broker house.
- Created framework for placing the new changes as adopted the latest tech.

- Maintenance provident fund automation for NGO like RDRS Bangladesh.
- Maintenance ERP Solution Including Account Software, Asset Management, Payroll etc.
- Develop Report & fixing bug in existing provident fund systems
- C# .Net, Asp .Net (Web Form), Sql Server, MySql, Access, Crystal Report used as tech there.

Software Implementer

DCL(Bangladesh)-CMG(Malaysia) Consortium -

August 2004 to March 2005

- Install & implement proposed system though out the Bangladesh country wide.
- Involved in training where necessary and gathering the change request and ensured that those changes came fixed.
- After placing all changes & training, my duty was taking user acceptance signature from end user.
- Java, JSP, Tomcat web server, iReport, SVN & Cisco server used for communicating 62 branch throughout the country Bangladesh.

EDUCATION

Research Student

Tokyo Polytechnic University

2007

Post Graduate Diploma in Scientific Instrumentation

Institute of Scientific Instrumentation Bangladesh

2005

BSC in Computing & Information System

London Metropolitan University

2004

SKILLS

C#, XML, Microsoft Sql Server, Crystal Report, UML, SSADM v4, HTML, CSS, Java Script, JQuery, JSON Object, Web Service, Asp.Net (MVC), Java, knockout JS MVVM

CERTIFICATIONS/LICENCES

Microsoft Certified Professional

This is Microsoft Certification For Windows NT Operating System and networking. I Passed Workstation and Server Exam.
