

MOHAMMAD MASUDUR RAHMAN

800 N Lucas Street, Apt Q8, West Columbia 29169 South Carolina, USA
masudk59dmc@gmail.com | [linkedin.com/in/mohammad-masudur-rahman-31a39159/](https://www.linkedin.com/in/mohammad-masudur-rahman-31a39159/) | M: 313 338 6369

PROFESSIONAL SUMMARY

Accomplished and passionate public health professional with over 9 years of multidisciplinary experience in maternal, infant, and child health, nutrition, implementation science, health education, and epidemiologic research across academic, global health, and government contexts. Proven expertise in leading randomized controlled trials, analyzing complex health datasets using advanced statistical tools, managing global health programs, and disseminating impactful research through 15+ peer-reviewed publications. Adept at translating evidence into actionable policy recommendation, teaching instructor in higher education, and collaborating across international teams. Well-versed in U.S. federal research protocols, global maternal/child health strategies, and community-based public health practice.

WORK EXPERIENCE

Arnold School of Public Health, University of South Carolina, USA	
Graduate Research Assistant	2017 - 2024
Helen Keller International, Nepal	
Intern	2020 - 2020
Maternal and Child Health Division, icddr,b, Bangladesh	
Senior Research Investigator	2015 - 2017
Medical Officer	2012 - 2015
Obstetrics and Gynecological Society of Bangladesh (OGSB), Dhaka, Bangladesh: Community-Based Skilled Birth Attendant (SBA) Training Program	
Medical Officer	2009 - 2010
Dhaka Medical College & Hospital	
Medical Officer (Internship)	2008 - 2009

ACADEMIC QUALIFICATION

Arnold School of Public Health, University of South Carolina, USA	
Ph.D. Major: Health Promotion, Education and Behavior	2017 - 2024
University of Dhaka, Bangladesh	
Masters of Population Sciences (MPS)	2013
Masters of Health Economics (MHE)	2010
Post Graduate Diploma in Health Economics (PGDHE)	2009
Dhaka Medical College & Hospital, University of Dhaka, Bangladesh	
Bachelor of Medicine and Bachelor of Surgery (MBBS)	2008

TEACHING AND ADVISING

Arnold School of Public Health, University of South Carolina, USA	
Teaching Assistant/ Teaching Instructor	2017- 2023

RESEARCH EXPERIENCE

Graduate Research Assistant (University of South Carolina)

- Developed and conducted a randomized controlled trial (RCT) and a process evaluation study in Nepal in 2020.
Key tasks: Protocol development and draft review, sample size calculation, literature review, data collection and data analysis, generate innovative ideas that would be included in the RCT study and process evaluation, and tools development.
Outcome:
 - Accomplished the successful execution of both of the studies within timeline
 - Protocol paper of the RCT study published in 2023
 - Final report of the process evaluation was completed and shared with relevant stakeholders

- Draft of a qualitative paper from the process evaluation data already done and shared with committee for review and publication
 - Work on the final paper of the RCT study is ongoing
- Contributed to evaluation of a program entitled “Feeding America Senior Hunger Program”.
Key responsibilities: Develop logic models for different food delivery programs in several states of USA, report writing.
Outcome:
 - Developed logic models for 16 different food delivery programs in 9 states of the USA
 - 2 abstracts were developed and presented at the American Society for Nutrition (ASN, 2018)
 - Final report submitted and findings of the program shared with relevant stakeholders
- Contributed to a qualitative study entitled “Stories of Change, Rwanda”.
Primary responsibility: reviewing the interviews and developed code/recoding.
Outcome:
 - Findings of the interviews and coding were shared with the PI of the project
- Secondary data analysis and prepare manuscript using dataset from “Alive and Thrive” project.
Outcome:
 - Conducted data analysis (quantitative) of the secondary dataset
 - Use secondary data for a course work for developing a manuscript using Stata

Co-Principal Investigator and Co-Investigator (icddr,b)

Grant writing; preparing IRB document; training and supervision; quantitative data analysis and interpretation; preparing reports, policy briefs and manuscripts; National and international dissemination

- *Assessing the appropriate dose and efficacy of bovine lactoferrin to correct iron deficiency anaemia in pregnancy: a series of community-based randomized controlled trials in Mirpur, Dhaka, Bangladesh*

Outcome:

- Completed the Medical Research Council (MRC) and Saving Lives at Birth (USAID) funded \$409,493 project in 2020
 - I was the lead of this project during the inception of the study
 - Published the impact paper in Maternal & Child Nutrition journal (2021)
- *A community-based cluster randomized controlled trial in rural Bangladesh to evaluate the impact of the use of iron/folic acid supplements early in pregnancy on the risk of neonatal mortality*

Outcome:

- Completed the NHMRC (Australia) funded \$2,458,839 project in 2016
 - I supervised the entire project from the beginning to the end
 - Conducted quantitative data analysis using Stata
 - 3 scientific papers were published based on the project data
 - Submitted and presented abstracts in international conferences (Srilanka 2015, USA 2018)
- *Developing and testing a mobile based integrated conditional cash transfer and community nutrition promotion intervention for poor rural households: A feasibility study in Bangladesh*

Outcome:

- Completed the Grand Challenges Exploration (CAN) funded \$100,000 project in 2018
 - The feasibility study paper was published in the JMIR mHealth and uHealth journal (2019)
- *Working with Individuals, Families and Communities (IFC) to improve Maternal and Newborn Health (MNH) in Netrakona district, Bangladesh*

Outcome:

- Completed the Enfants Du Monde funded \$100,000 project in 2015
 - 2 scientific papers were published in 2018 (BMC pregnancy and childbirth and PLoS ONE)
- *Economic evaluation of the Ponseti method of clubfoot treatment in Rangpur, Bangladesh*

Outcome:

- Completed the University of British Columbia, Canada funded \$170,722 project in 2017
 - 1 study protocol of a systematic review was published in PLoS ONE journal (2018)

- *Impact and operational assessment of an integrated “Safe Motherhood and Newborn Health Promotion Package”: a community-based cluster randomized controlled trial in Bangladesh*

Outcome:

- The Japan International Cooperation Agency (JICA) funded \$41,66,628 project stated in 2018 and is still ongoing
- I was an integral member (co-investigator) of this large program before I took study leave for my doctoral study

- *Improve the performance of IMCI trained service providers using e-health technology in decision making, documentation and monitoring at first level facilities of Bangladesh*

Outcome:

- Completed the DFID Innovations funded \$88,000 project in 2015

- *Program evaluation of implementation of National Nutrition Services (NNS)” in Bangladesh*

Outcome:

- Completed the Children Investment Fund Foundation (CIFF) funded \$13,78,938 project in 2017
- Conducted quantitative data analysis, prepared final report of the impact evaluation and disseminated important findings with donors and relevant stakeholders

Process Evaluation lead (Internship)

- Accomplished a 9 months long internship program in 2020 in Nepal.

Outcome:

- Developed process evaluation protocol
- Developed innovative study design (Social mapping, Network analysis) and tools for data collection
- Developed manual for training and data collection
- Conducted data analysis
- Interpretation, final report development, and dissemination of the findings of the process evaluation with relevant stakeholders

TECHNICAL & ANALYTICAL SKILLS

- **Statistical Software:** Stata, SPSS, SAS, NVivo, ArcGIS
- **Data Visualization & Dashboarding:** Excel, Tableau
- **Health Informatics:** CommCare, REDCap
- **Other Tools:** Microsoft 365 (MS Office), Asana, Zotero, Google Workspace
- **Methods:** RCTs, quasi-experimental designs, mixed methods, cost analysis, policy analysis

AWARDS

- Maternal and Child Health Graduate Scholars, 2020 by the Maternal and Child Health Public Health Catalyst Program (Arnold School of UofSC)
- Graduate School Travel Grant, Dean Student Travel Award, Department (HPEB) Travel Grant, University of South Carolina -Awarded for participating American Society for Nutrition, 2018 conference
- Graduate School Travel Grant, Dean Student Travel Award, Department (HPEB) Travel Grant, University of South Carolina- Awarded for participating American Public Health Association, 2018 conference
- Bangladesh-Sweden Trust Fund, 2017- This fund is for one way air travel fare to the eligible candidates for higher studies (e.g., PhD) for Bangladeshi student
- Arnold Fellowship, University of South Carolina - August 2017
