PROFESSIONAL SUMMARY

Motivated fresher with a background in Computer Engineering (Honors in Cybersecurity) and Mechanical Engineering. Skilled in hardware-software integration, with strong knowledge of data analytics and visualization. Eager to apply technical skills to real-world challenges.

SKILLS

- **Languages:** Python, C++, C, JAVA
 - **Database Management:** MySQL.
 - **Data Analysis:** Numpy, Pandas, Matplotlib, Seaborn.
 - **Machine Learning:** TensorFlow, Catboost, Scikit-learn, Keras.
 - **Cloud Technology:** AWS.
 - **Data Visualization:** PowerBI, Excel, Tableau.
 - **CAD/CAM software familiarity**
-

EDUCATION

Bachelor of Technology: Computer Science, 05/2025
University of Mumbai - Mumbai

- 3.55 GPA
- Honoree of Cyber Security

Diploma: Mechanical Engineering , 08/2021
Maharashtra State Board of Technical Education - Mumbai

- 3.46 GPA
-

CERTIFICATIONS

- C++
 - Cloud Computing, AWS - March 2024
 - Python
 - Certificate of Publication, Journal of Engineering, Computing and Architecture - November 2024
 - Power BI for Beginners - Mach 2025
-

EXPERIENCE

Test Engineering Technician, 06/2025 - Current
Flextronics – Pflugerville, TX

- Managed inventory of test equipment, ensuring proper maintenance and calibration for accurate results.
- Assisted in the development of standardized test procedures across multiple projects, promoting consistency within the organization.
- Enhanced product quality by conducting thorough tests and identifying areas for improvement.

Intern, 04/2021 - 07/2021

Yesh Engineering – Mumbai

- Maintained cleanliness and order of conveyor belt and sorting line areas to reduce safety risks.
 - Managed inventory levels effectively, ensuring optimal availability of tools and spare parts required for each project.
 - Optimized workspace organization to facilitate faster, more efficient sorting operations.
-

PROJECTS

AdmissionPulse:

- Predicts admission chances based on SOP, LOR, GPA, GRE, and TOEFL scores.
- Generates Letter of Recommendation (LOR) and Statement of Purpose (SOP) content using BERT based on user inputs.
- Evaluates and rates both generated and pre-written SOPs.

Bike Rental Demand Forecasting System:

- Built a predictive analytics system to forecast urban bike rental demand.
- Utilized SARIMA and Facebook Prophet time series models for accurate forecasting.

Weather Chatbot:

- Developed an NLP-powered chatbot to provide real-time weather information.
- Supports location input in both Kannada and English languages.

Vertical axis wind turbine:

- Designed a vertical axis wind turbine to harness wind energy efficiently.
- Focused on maximizing electric output through an innovative turbine structure.
