PROFESSIONAL SUMMARY

Software engineer with more than 2.5 years of experience developing high-performance mobile and web applications using Java, Flutter, JavaScript, and Python. Well-versed in object-oriented programming, data structures, and agile development methodologies. Experienced writing SQL queries and managing back-end services with Firebase, AWS, and Azure. Proven ability to collaborate in cross-functional teams to deliver scalable features. Currently pursuing a Master's in Information Science, bringing both strong academic knowledge and practical development experience.

TECHNICAL SKILLS

Languages: Java, Dart, Python, JavaScript, HTML5, CSS3, XML, JSON

Frameworks: Flutter, Bootstrap, jQuery, React.js

Core competencies: Data Structures & Algorithms, OOPS, Operating Systems, Computer Networks, Artificial Intelligence

IDE & Tools: Git, Android Studio, VS Code, SQLite, JIRA, Zeplin, RoboFlow, Apache Tomcat

Cloud & Backend: Google Colab, AWS, Azure, SQL (MS-SQL, MySQL), SQLite

Others: REST APIs, Data Modeling, Agile (Scrum), Linux, Firebase, VMware, Version Control, Virtual Box, Google Colab.

EXPERIENCE

CyberForce Technologies | Software Engineer

Hyderabad, India (Remote) | Jan 2021 – Aug 2023

- Developed responsive and intuitive user interfaces in Flutter, using Riverpod Architecture, enhancing user engagement and application performance.
- Integrated REST APIs, efficiently storing and manipulating JSON data with JavaScript and Python, improving data handling by 30%.
- Spearheaded Agile SDLC processes, collaborating with third-party libraries and APIs to deliver projects faster while working closely with product managers and UX designers.
- Implemented comprehensive testing procedures and resolved critical issues, leading to a 10% enhancement in application performance.
- Optimized the codebase and maintained detailed documentation, ensuring efficient future development and seamless knowledge transfer.
- Implemented SQL-based data operations and maintained efficient data schemas.
- Leveraged Firebase for backend support, optimizing data management and user experience.
- Provided constructive feedback in code reviews, contributing to a 10% improvement in overall code quality.

Microsoft | Future Ready Talent Intern

Remote | Nov 2021 – Feb 2022

- Gained hands-on experience with Azure cloud services and learned Microsoft technologies, including Azure Fundamentals and GitHub workflows.
- Developed and deployed a Covid-19 Tracker using ReactJS, Material UI, CSS, and Firebase, enhancing real-time data tracking.

Gleam Technologies | Web Developer Intern

Hyderabad, India | June 2019 - July 2019

- Designed and developed an E-Commerce Website using HTML5, CSS3, Bootstrap, enhancing online shopping experience. Utilized Bootstrap for responsive design, HTML/CSS for user interface structuring and styling, and JavaScript for interactive features.
- Implemented a School Management System with Bootstrap, HTML & CSS, JS, and PHP, streamlining administrative tasks.
- Created interactive front-end web applications using HTML & CSS, JavaScript, and PHP.

PROJECTS

License Plate Detection | Python, Google Colab, RoboFlow

- Achieved 92% accuracy using YOLOv5 for object detection and Pytesseract-OCR for character recognition on a dataset of over 800 images.

Network Security Web Application for File Transfer | Java, HTML & CSS, Bootstrap, JS, SQLite

- Developed a web application to secure file transmissions using triple-layer DES encryption with a dynamic update mechanism, ensuring data safety for database owners and users.

Inventory Management System | Java

- Created a user-friendly Java application to streamline inventory management in warehouses. It allows adding, deleting, and modifying item details without a database connection, making it ideal for offline use cases.

EDUCATION

Trine University, Phoenix, US

Master of Science in Information Studies; CGPA: 3.94/4.0

August 2023 – May 2025

Osmania University, Hyderabad, India

Bachelor of Engineering in Computer Science Engineering; CGPA: 8.60/10.0

2016 – 2020

Telangana State Board of Intermediate Education, Hyderabad, India

Intermediate - Maths, Physics, Chemistry; CGPA: 9.68/10.0

2014 – 2016

CERTIFICATION

- Achieved Java Programming Certification from HackerRank and Oracle Academy.
- Achieved Database Design and Programming with SQL certification from Oracle Academy.
- Completed Elements of AI course from University of Helsinki and Reaktor.
- Completed Linux Unhatched Course from Cisco Networking Academy.
