OBJECTIVE

Aspiring Junior Engineer with a solid foundation in computer science, software development, and Data Engineering practices. Proficient in building and deploying scalable applications, passionate about clean code, automation, and contributing to cross-functional teams. Looking to apply my skills in modern development environments to build impactful solutions.

EDUCATION

German University in Cairo 2019 - 2024

Bachelor of Information Engineering and Technology Grade: B+

Major: Information Engineering

Relevant courses: Data Structures and Algorithms, Object-Oriented Programming, Data Engineering, Cloud Computing, Probability and Statistics, Linear and Non-Linear Optimization

Hof University of Applied Sciences, Germany Grade: A+

Bachelor's thesis: Sports Trainer using BLE-Based Sensors

EXPERIENCE

IT Solutions Engineer Sep 2024 - Present

Boehringer Ingelheim, Cairo, Egypt

- Designed and maintained ETL pipelines to ingest and transform data from HR systems.
- Developed **Power BI** dashboards to monitor leave requests, approval metrics, and absence trends across departments.
- Implemented data validation and transformation logic using **Power Query** and **DAX**.
- Automated report delivery using **Power Automate** and integrated insights into SharePoint workflows.

Coding Instructor Jun 2024 - Sep 2024

iSchool, Remote

- Taught programming concepts such as variables, loops, and conditional statements to Grade 6 students.
- Used Scratch and Python to help students apply concepts in real-world projects and game development.
- Introduced foundational AI concepts including its applications, logical operators, and software vs. hardware differentiation.

Junior Research Assistant Apr 2023 - Aug 2023

Hof University of Applied Sciences, Germany

- Automated data acquisition and preprocessing workflows using Python and shell scripting.
- Built lightweight software utilities to support academic research and improved data processing efficiency.

Junior Teaching Assistant Sep 2022 - Jan 2023

German University in Cairo

- Helped students understand programming fundamentals and apply logic to solve coding challenges.
- Supported assignments and lab sessions in Python, focusing on functions, loops, and data structures.

INTERNSHIPS

Backup Engineer Intern
Credit Agricole Head Office, Egypt

Jul 2024 - Aug 2024

- Handled technical support tasks and worked with enterprise infrastructure systems.
- Learned about system monitoring and participated in creating technical documentation.

Telecommunication Intern
Nokia, Cairo, Egypt

Aug 2022 - Sep 2022

- Learned the basics of network automation and infrastructure software.
- Studied software-defined networking, cloud-native services, and orchestration concepts.

IT Intern
Banque de Caire, Cairo, Egypt

Jul 2022 - Aug 2022

- Worked on SQL-based data transformation tasks for operational databases.
- Wrote scripts to preprocess and query structured datasets for business analysis.

PROJECTS

NYC Green Taxi Data Analytics

- Developed data processing pipelines using **Python,Docker**, and **Airflow**.
- Packaged data transformation scripts into containers for reproducibility.
- Used **PostgreSQL** as a central warehouse and scheduled workflows using Airflow in a CI/CD setup.

NYC Green Taxi Machine Learning

- Built classification models to predict fare categories using multiple ML algorithms.
- Evaluated unsupervised clustering algorithms and visualized outcomes to compare performance.

Telecommunications Customer Churn Prediction

- Processed telecom customer data and applied classification models to predict churn risk.
- Utilized Pandas, NumPy, and Matplotlib for data handling and analysis.
- Version-controlled source code using Git/GitHub and followed CI/CD principles.

SKILLS

Programming Languages: Python, Bash, Kotlin, Java

Data Engineering: ETL, Airflow, Power BI, DAX, Power Query, Pandas

Data Visualization: Power BI, Matplotlib, Seaborn

Tools/Platforms: Docker, Git, GitHub, Power Apps, Power Automate

Databases: PostgreSQL, SQL, Firebase

Cloud/DevOps: AWS, Kubernetes, CI/CD

Languages: Arabic (Native), English (Intermediate), German (A2)

Soft Skills: Problem Solving, Analytical Thinking, Team Collaboration
