Summary

Motivated and curious Computer Science student eager to gain hands-on experience in a real-world environment. I enjoy exploring new technologies and translating information into meaningful insights that drive results. My academic journey and practical exposure have shaped me into an adaptable team player with a strong analytical mindset and a commitment to continuous learning. As I begin my professional journey, I am excited to contribute fresh perspectives and a positive attitude to a forward-thinking organization.

Education

BSCS (Bachelor's in Computer science) Virtual University	2021-2025
Intermediate (ICS) BISE Lahore	2019-2021

Experience

Project

Project: Smart Gym Management System**
Client Project | 2025

- Developed a management system to track gym memberships, attendance, and performance.
- Utilized Python and SQL to manage and analyze data, and generated automated reports.
- Created dashboards (Excel) to visualize member activity and gym usage trends.
- Provided actionable insights for resource optimization and member engagement
