

Mohit Dalal

Apex Rochester, NY • +1 (585) 576-1352 • md4108@g.rit.edu • www.linkedin.com/in/mohitdalaliitd • Portfolio

EDUCATION

- 2023-2025 **ROCHESTER INSTITUTE OF TECHNOLOGY** Rochester, NY
Masters in data science - Grade 4/4
Relevant coursework: Software Construction, Applied Statistics, Database Design & Implementation, Self Adaptive systems with Reinforcement Learning, Explainable AI, Software engineering and development, Digital Twins, Predictive Maintenance.
- 2015-2019 **IIT DELHI, INDIA** Delhi, India
Bachelor of Technology – Industrial and Production Major – Grade 7.34/10
- Automated Surveillance System: A motorized device, capable of pointing and shooting up to a range of 20m at offensive activity across borders. **Received two awards on the same:** Boss Award - Best Hardcore Experimental Project and Man Mohan Suri Project Award - Best Innovative Hardware-Oriented Project
 - International Journal of Production Research Dalal, Mohit et al. 'A comparative study of GA and PSO approach for cost optimization in product recovery systems' [Link](#). Journal Impact factor - 9.018
-

EXPERIENCE

- 2022-2023 **INFINITE UPTIME** Pune, India
Data Science Manager, R&D
- Led a team of 2 Data Scientists, delivering solutions for predictive maintenance of crucial industrial equipment
 - Led development of low-code applications on Zoho Creator for sales and customer success
 - Developed Python executable utilities to streamline and automate data collection and report generation
 - Engineered an automated diagnostics system utilizing Python to accurately assess the health of the machine, while also expanding the system's underlying logic to incorporate emerging failure modes
 - Built an end-to-end solution to automatically predict the health of machines using vibration data from 200+ clients
- 2020-2022 **WOLTERS KLUWER** Pune, India
Data Scientist II
- Responsible for helping sales team with a 360° view of the competitive landscape to win new prospects
 - Implemented a Python-based end-to-end clean-up of the quote creation process by building an in-house product to enforce consistent pricing mechanisms of quote generation for all global sales representatives, saving \$1.2M
 - Built data pipelines to collate data from Eloqua, and Salesforce (inside sales), using them to develop a marketing funnel, lead journey & campaign attribution models
 - Conducted price forecasting by applying clustering techniques to new products, utilizing historical sales data from internally similar products as well as product and pricing data from competitors
- 2019-2020 **WOLTERS KLUWER** Pune, India
Data Scientist I
- Devised python-based processes to seamlessly conduct implementation/transactional surveys, enabling extraction of insights derived from a comprehensive competitive study encompassing 150+ competitors
 - Used advanced statistics and analytics to deliver recommendations, helping sales team exceed annual quotas
-

SKILLS

- Functional Areas:** Data Science, Machine Learning, Coding and Testing, Explainable AI, System Design, DSA
 - Computer Languages:** Python, Java, C, SQL, PySpark, HMTL, CSS
 - Software /Tools:** Google Cloud Platform(GCP), Zoho Creator, Tableau, Salesforce, Einstein Analytics, Apache Kafka, Nvidia OpenUSD, Omniverse, Nvidia Isaac Sim, Power BI, Excel, MongoDB, JMP Pro
 - Libraries:** NumPy, Pandas, Scikit-Learn, SciPy, Matplotlib, Seaborn, TensorFlow, Keras, NLTK, LangChain, Streamlit
 - Methods/Techniques:** Deep Learning, Time Series Forecasting, LLMs, Transformers, Encoder and Decoder
-

AWARDS

- Won quarterly “Business Impact” Award for improving productivity of operations, Infinite Uptime, 2023
- Winner of Prime Player Award for outstanding contribution in the year 2021, Wolters Kluwer, 2021
- Winner of Spotlight Award and Standing Ovation Award, Wolters Kluwer, 2020
