### EXPERIENCE

Providence Christian Academy, Lilburn, GA

Pre-school Teacher

July 2022-Present

- Monitor student progress through observational assessments and data tracking, identifying learning patterns and areas for improvement.
- Research best practices in early childhood education, integrating evidence-based techniques to enhance student engagement and development.
- Introduce fundamental movement skills through fun, age-appropriate activities to promote physical development and coordination.

Track and Field Coach

- Teach basic track and field techniques, emphasizing motor skills, balance, and body awareness in a Varsity track and field environment.

Birmingham Southern College, Birmingham, AL

Office Assistant- Work Study

Sept 2018-May 2022

- Welcomed students, staff, and vendors, assisting and directing them to the appropriate offices for support.
- Provided administrative support by managing documents, organizing records, and maintaining accurate financial and student statistical data to ensure efficient office operations.

Senior Research

- Examined the effects of COVID-19 on pregnant mothers, analyzing health outcomes and prenatal care considerations.
- Investigated the potential link between acetaminophen use during pregnancy and autism, reviewing existing studies and medical findings.

Research Methods

- Shadowed clinical psychology professionals, gaining firsthand insight into research best practices
- Assisted in research for Research Methods, contributing to data collection, analysis, literature reviews, and research paper
