

MONICA SAHANE

DATA ANALYST

- 📞 314-709-7139
- ✉️ monica.phatangare@gmail.com
- 🏠 O-Fallon, MO, USA
- 🌐 [Linkedin/monica-sahane](#)

PROFESSIONAL OVERVIEW

To obtain an entry-level Data Analyst position where I can apply my analytical skills, statistical knowledge, and passion for data to contribute to data-driven decision-making and further develop my expertise in a challenging and rewarding environment.

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, HTML, SQL
- Databases: PostgreSQL, MySQL, MongoDB
- Frameworks & Libraries: Flask, SQLAlchemy, Pandas, NumPy, Django
- Tools & Platforms: Jupyter Notebook, Google Colab, Tableau, VS Code, GitHub, Excel, SAS
- Skills: Data Visualization, Data Collection, Database Management, Data Mining, Machine Learning
- Technologies: GeoJSON, CSS

COURSE PROJECTS

California Road Traffic Injury Analysis

Summary:

Analyzed a dataset of road traffic injuries in California (2002-2010) from the California Department of Public Health. Focused on trends in collision frequency, regional injury rates, and safety across transportation modes. This analysis provided actionable insights for policy changes to improve traffic safety across the state.

Tools: Python, Pandas, SciPy Stats, Matplotlib, Pathlib, Git

URL: <https://github.com/Rock-Roll1968/SQL-Challenge.git>

Crowdfunding Data ETL Pipeline

Summary:

Developed an ETL pipeline to process and analyze crowdfunding data from CSV and Excel files. Cleaned, transformed, and standardized datasets, ensuring consistency and quality for analysis. Streamlined data processing and prepared datasets for meaningful analysis, enabling efficient insights into crowdfunding campaigns.

Tools: Python, PostgreSQL, Quick DBD, CSV, Git, Jupyter Notebook

URL: <https://github.com/Rock-Roll1968/SQL-Challenge.git>

EDUCATION

Data Analytics Bootcamp

Washington University,
St. Louis, 2025

Bachelor's degree in Computer Science

Pune University, 2012

SKILLS

- Analytical thinking
- Programming
- Teamwork
- Data visualization
- Time management
- Adaptability

EMS Calls for Opioid Emergencies

Summary:

Visualized opioid-related EMS calls in Tempe, AZ (2017-2024) using interactive maps and charts to identify trends by month, age, and gender. Delivered actionable insights into opioid emergency trends for public health analysis. Delivered actionable insights into opioid emergency trends for public health analysis.

Tools: HTML/CSS, JavaScript, CanvasJS, Plotly, Leaflet, D3.js

URL: <https://github.com/Rock-Roll1968/SQL-Challenge.git>

Music Recommendation System

Summary:

Developed a KNN model for song similarity and a genre classification model using a 40,000-song Spotify dataset. Created a Flask app for song recommendations with clickable Spotify links. Used Apache Spark SQL for data processing and visualization with t-SNE and bar charts.

Tools: Python, SQL, Apache Spark, Flask, scikit-learn, t-SNE, Pandas

WORK EXPERIENCE

Receptionist, H&R Block – Feb 2023 – Apr 2023

- Operated multi-line telephone system to answer incoming calls and accurately direct callers to appropriate
- Operated multi-line telephone system to answer incoming calls and accurately direct callers to appropriate
- employees.
- Helped with the preparation of documents for meetings, conferences and other events as needed.
- Handled frequent work process interruptions with flexibility and poise.
- Processed incoming and outgoing documents via electronic methods and systems.
- Delivered accurate phone messages to personnel with legibly written call-back numbers and names.
- Analyzed data to determine answers to questions from customers and members of public.
- Scheduled appointments and maintained and updated appointment calendars
