EDUCATION

NORTHEASTERN UNIVERSITY

Master of Science in Information Systems

Boston, MA

May 2025

Relevant Courses: Application Engineering and Development, Web Design and User Experience Engineering, Concepts of Object-Oriented Design, User Experience Design and Testing, Programming Structured Algorithm, Data Science and Engineering Tools, Agile Software Development, Building Virtual Environments

THE OXFORD COLLEGE OF ENGINEERING

Bachelor of Engineering in Computer Science

Bengaluru, India

August 2021

TECHNICAL SKILLS

Programming Languages: Javascript, Typescript, Java, Python

Frameworks & Libraries: React, Spring Boot, Flask, Node.js, Next.js, FastAPI, Bootstrap, Tailwind CSS, Express.js

DevOps Tools: AWS, Git, Jenkins, Docker, Kubernetes

Databases: SQLite, MySQL, Firebase, RDBMS, MongoDB, SQL, NoSQL, PostgreSQL

EXPERIENCE

NTT DATA, Bengaluru, India

September 2021 - July 2023

Software Developer,

- Developed dynamic, mobile-first web pages using **React.js**, resulting in a **28% increase** in average session duration and **improved website accessibility** across devices
- Integrated **OpenAI's Language Learning Model (LLM)** into the application, enhancing system functionality and **reducing response latency by 15%**, while supporting **30% more concurrent requests**
- Integrated **Google OAuth** for secure and efficient authentication, enabling more streamlined management of the sign-in process and reducing authentication processing time by 20%
- Optimized server performance by **refactoring Node.js** logic, enhancing database queries, and implementing caching mechanisms, resulting in 20% faster response times and **99.9% uptime on AWS**
- Developed a CMS to replace manual content updates, automating workflows and **reducing update times by 25%** across 5 applications integrated with **Firebase** and **React.js**

CELESTIAL V SOLUTIONS, Bengaluru, India

March 2021 - August 2021

Software Developer Intern,

- Designed and developed a **cloud-based** stock visualization application using the MERN stack, increasing **data rendering speed by 20%** for high-traffic users
- Optimized backend logic by analyzing system requirements and implementing **efficient algorithms**, enhancing processing speed and scalability
- Built **RESTful APIs** and integrated databases, improving communication between **backend and frontend systems by 25%**
- Deployed a containerized application on **AWS ECS**, streamlining service orchestration and **boosting scalability by 30%**

PROJECTS

YOOM | React.js, Next.js, shadcn, TailwindCSS, TypeScript

- Built a **video conferencing platform** with features like meeting creation, user authentication, and participant management
- Integrated Clerk for **secure authentication** and **GetStream** for real-time communication, supporting interactive video meetings
- Designed a responsive UI using **Tailwind CSS**, ensuring compatibility across all devices

LIVE DOCS | React, Liveblocks, Next.js, TailwindCSS, TypeScript

- Created a **Google Docs-like** collaborative document editing platform with real-time presence indicators
- Implemented **Liveblocks** for seamless **multi-user editing** and **NextAuth** for secure GitHub-based authentication
- Built using Next.js, optimizing **scalability and performance** for high-demand usage

CERTIFICATIONS

- AWS Certified Developer Associate (DVA-C02)
- AWS Certified Solution Architect (SAA-C03)
