SUMMARY

Business Analyst with 4+ years of experience improving financial reporting, risk analysis, and data accuracy. Used Python, SQL, and Power BI to cut reporting time by 40% and increase data reliability by 25%. Built dashboards and automation tools that helped reduce errors and speed up decision-making. Worked closely with teams to meet compliance needs and fix over 12,000 data issues.

SKILLS

Data Analysis & Reporting: Python (Pandas, NumPy), SQL, GS Quant, Time Series Analysis, Data Cleansing, Data Normalization, Financial Modeling, CCAR, BCBS 239, Data Quality Management

Business Analysis: BRD, FRD, Agile Ceremonies, KPI Definition, Gap Analysis, Process Mapping, Use Cases, UAT, Stakeholder Interviews

Data Visualization: Power BI, Tableau, Financial Dashboards, Executive Dashboards, Risk Metrics, Performance Attribution

Automation & Scripting: Python Automation, ETL Automation, Report Automation, Workflow Scripting, Excel VBA

Stakeholder Engagement: Cross-functional Teams, Product Management, Agile Collaboration, Regulatory & Compliance, Risk & Investment Teams

Market & Competitive Analysis: Market Research, Portfolio Analytics, Competitor Benchmarking, Risk/Return Analysis, Regulatory Impact

Data Integration: SQL Development, Multi-Source Integration, API Feeds, Bloomberg, FactSet, Trading & Risk System Integration

Process Improvement: Risk Reporting Optimization, Incident Analysis, Deployment Enhancement, Control Improvements, Audit Remediation, Operational Efficiency

EXPERIENCE

Business Data Analyst **Feb 2025 – Present**
State Street **USA**

- Streamlined regulatory reporting by leading the development of an automated CCAR suite using Python and SQL, cutting reporting time by 40% and enhancing compliance with Federal Reserve mandates.
- Enabled data-driven decision-making by delivering a KPI-focused Power BI dashboard based on insights from cross-functional stakeholder interviews, increasing executive visibility into key risk metrics by 30%.
- Boosted data accuracy by collaborating across Agile teams to integrate multi-source data for Basel III compliance, improving the reliability of capital exposure calculations by 25%.
- Enhanced risk monitoring by implementing a time series normalization model in Python (Pandas/NumPy), increasing anomaly detection in exposure datasets by 35%.
- Supported strategic initiatives by drafting comprehensive BRDs and FRDs for a \$5M modernization project, contributing to a 15% reduction in regulatory fines YoY through improved audit readiness.
- Improved compliance and data trust by leading UAT efforts that resolved over 12,000 critical data issues, raising audit performance scores from 85% to 97%.

Data Analyst **Jan 2019 - Dec 2022**
KPIT Technologies **India**

- Increased reporting efficiency by automating ETL workflows and dashboard generation using Python and Tableau, saving over 60 analyst hours per month and enabling near real-time financial insights.
- Accelerated trading decisions by engineering SQL pipelines to ingest data from FactSet and Bloomberg APIs, reducing portfolio analysis refresh times from 24 hours to 2 hours.
- Informed investment strategy by conducting competitor benchmarking across 15+ financial institutions, leading to a 4.2% improvement in portfolio ROI within two quarters.
- Reduced risk incidents by building dynamic Power BI dashboards to track real-time Visual Risk Metrics, contributing to a 22% drop in VAR breaches during Q1.
- Ensured regulatory compliance by driving a BCBS 239 data remediation initiative across 3 critical systems, decreasing audit findings by 18% through improved data lineage.
- Optimized performance reporting by automating Python and VBA-driven attribution reports, improving report accuracy to 99.5% while halving delivery time.

EDUCATION

Masters in Business Analytics **Jan 2023 - Dec 2024**
Wichita Falls, Texas

Bachelors of Technology in Computer Science and Engineering **Jul 2017 - Jul 2021**
AVN Institute of Engineering and Technology, India

CERTIFICATIONS

- Tata – GenAI Powered Data Analytics Job Simulation
- Deloitte Australia – Data Analytics Job Simulation
- Power BI – Udemy Certification
- Python – Task-Based Practical Training
