

Mounika Krishna Thalla

Java Full Stack Developer

Boston, MA | +1 (201) 423 0728 | mounika@myjobitmail.com | [LinkedIn](#)

SUMMARY

Java Full Stack Developer with 4+ years of hands-on experience in developing, implementing, and testing web-based applications across all stages of the SDLC using Agile and Waterfall methodologies. Proficient in Java and J2EE technologies, including Servlets, JSP, JDBC, JavaBeans, and JSTL, with expertise in open-source frameworks such as Spring (Boot, MVC, Security), Hibernate, and Microservices for scalable application development. Experienced in front-end development using React.js, Node.js, JSX, HTML, CSS, etc., specializing in Single Page Applications (SPA) to enhance user experience and responsiveness. Skilled in building RESTful APIs and integrating backend services with modern front-end frameworks. Proficiency in RDBMS and NoSQL databases, developing optimized SQL queries and stored procedures for efficient data management.

SKILLS

Methodologies: SDLC, Agile, Waterfall

Languages: Core Java, Java 8/11, SQL

Frameworks: Spring (MVC, Boot, Security), Microservices, Hibernate, JPA, JSF, React.JS, Vue.JS, Node.JS, Angular.JS

IDEs: NetBeans, IntelliJ IDEA, VS Code, Eclipse

J2EE Technologies: Servlets, JSP, JSTL, JavaBeans, JDBC, Java Mail

Web Technologies: HTML, CSS, JavaScript, TypeScript, Bootstrap, jQuery, Ajax, JSON, XML

Cloud Technologies: AWS (VPC, EC2, S3, CloudFront, ELB, Redshift), Azure, GCP

Application Server: Apache Tomcat, IBM Web Sphere

Databases: MySQL, SQL Server, PostgreSQL, Oracle, MongoDB

Version Control/Other Tools: Git, GitHub, GitLab, Maven, Gradle, Jira, Jenkins, Junit, MS Excel, JMeter

Operating Systems: Windows, Linux, Mac

EXPERIENCE

S&P Global, USA | Java Full Stack Developer

Mar 2024 - Present

- Implemented Agile development methodology, serving as a liaison between business users and technical teams, ensuring seamless collaboration and project alignment.
- Developed and optimized stored procedures using Java 8, Jenkins, and Microservices architecture, improving order-to-invoice reconciliation efficiency by 35% and reducing processing time by 25%.
- Built and deployed 15+ web applications using Spring MVC, jQuery, and Bootstrap, implementing Multithreading and Collections Frameworks, which improved application responsiveness by 40%.
- Established and improved 30+ RESTful APIs, seamlessly integrating them with React.js and Angular-based front-end applications, resulting in a 40% improvement in data exchange efficiency and a 25% boost in user responsiveness.
- Created AJAX-based applications, optimizing real-time data retrieval from REST APIs, reducing response times by 50%, and improving overall front-end performance and user experience.
- Installed and configured AWS Cloud Management applications, ensuring optimal cloud infrastructure performance.
- Optimized MySQL database performance, reducing query execution time by 40% through SQL fine-tuning, indexing, and efficient stored procedures, and functions, enhancing data retrieval efficiency and application performance.

Citius Tech, India | Java Full Stack Developer

Jun 2018 - Nov 2021

- Participated in all phases of the Software Development Life Cycle (SDLC), including requirements gathering, analysis, development, and testing, following the Waterfall model.
- Utilized Hibernate framework in the persistence layer to map an object-oriented domain model to a relational database, resulting in a 30% improvement in data access efficiency.
- Advanced and deployed Web APIs Java Spring Boot and hosted them on multiple load-balanced API instances, ensuring 99.9% uptime and enhanced scalability.
- Built web and distributed applications using J2EE technologies such as JSP, Servlets, and JavaBeans, improving server-side application performance by 35%.
- Integrated Azure Active Directory (AAD) for secure authentication and access control, improving data security and compliance with enterprise standards.
- Developed a responsive Single Page Application (SPA) using JavaScript, jQuery, HTML, and CSS, collaborating with front-end UI teams to ensure seamless user interactions.
- Automated unit testing with JUnit, achieving 85% test coverage and reducing post-production defects by 50%, improving overall code reliability and maintainability.

EDUCATION

Master of Science in Computer Science

Pace University

Dec 2023

New York, NY

Bachelor's Degree in Electronics and Communication

Institute of Aeronautical Engineering

Jun 2017

Hyderabad, India

CERTIFICATIONS

AWS Developer Associate Certification - Expires July 2027
