

Mounika Palthya

SAP Consultant

Memphis, TN 38111 | mounikap1974@gmail.com | (901) 666-0957 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary:

SAP Consultant with 4+ years of experience delivering optimized supply chain solutions using **SAP APO (DP, SNP, PP/DS)** and **SAP S/4HANA (MM, PP)**. Specialized in **production planning, material management**, demand forecasting, and inventory optimization. Skilled in integrating SAP modules, performing root cause analysis, and resolving high-priority issues with a 97% success rate. Proven ability to align SAP functionality with business processes to enhance operational efficiency across manufacturing and logistics domains.

Skills:

SAP Functional Expertise

- SAP APO: Demand Planning (DP), Supply Network Planning (SNP), Production Planning and Detailed Scheduling (PP/DS), CIF Integration
- SAP S/4HANA MM: Purchase Requisition & Orders, Vendor Management, Inventory Management, GR/IR
- SAP S/4HANA PP: Bill of Materials, Work Centers, Routing, MRP, Capacity Planning

Tools & Technologies

- SAP ECC, SAP GUI, Fiori Launchpad, Smart Forms, CIF, LSMW, IDocs, BAPIs
- Agile, JIRA, ServiceNow, Microsoft Excel, SQL (basic), Power BI, Python (for analytics)

Supply Chain & Analytics

- Production Scheduling, Forecast Accuracy, Inventory Optimization, Root Cause Analysis (5 Whys, Fishbone), Control Charts
 - Cross-functional Collaboration, KPI Reporting, UAT, Change & Release Management
-

Professional Experience:

SAP Consultant, Dell Technologies

Oct 2024 – Present

- Led SAP APO implementation for **end-to-end production planning, demand forecasting, and inventory optimization**; reduced lead times by 25% and improved inventory turnover by 20%.
- Designed and managed **planning books for DP and SNP**; handled batch job failures and planning alerts with 97% resolution rate.
- Enhanced production scheduling accuracy using SAP PP/DS, **MRP optimization**, and detailed capacity planning; reduced stock mismatches by 25%.
- Integrated SAP APO with ECC using CIF interface for seamless data flow of master and transactional records.
- Automated critical batch jobs and implemented process improvements using Six Sigma DMAIC and root cause analysis tools.
- Implemented SAP S/4HANA MM & PP features for warehouse, procurement, and shop floor tracking to improve real-time visibility.
- Collaborated with stakeholders **to streamline pricing rules, vendor management**, and real-time delivery updates.
- Enabled third-party integrations via IDocs and BAPIs, boosting order visibility by 35%.
- Supported **UAT**, documentation, and issue resolution for **procure-to-pay and order-to-cash cycles**.
- Developed **Fiori dashboards** for tracking warehouse KPIs, inventory metrics, and delivery performance.

SAP Consultant, Tata Consultancy Services (TCS)

Oct 2021 – Dec 2022

- Expertise in Demand Planning, Supply Network Planning (SNP), and Production Planning within SAP APO.
- Delivered solutions for **complex supply chain planning challenges**, ensuring seamless **change and release management** for master data in SAP R/3 and APO systems.
- Gained proficiency in SAP APO tools for Demand Planning, Supply Network Planning, and Production Planning, with a strong focus on **APO-PPDS and SNP**.
- Resolved technical issues related to Supply Network Planning and Production Planning, demonstrating a keen analytical approach to problem-solving.
- Successfully implemented **100+ enhancements** within the first two months of the project, seamlessly taking over from an incumbent.

- Managed and resolved **high-priority monitoring alerts**, ensuring the smooth execution of **critical regional jobs** such as deployment and heuristics.
- Addressed and resolved over **97% of Production Planning failures** within the given timeframe, ensuring minimal disruptions to operations.
- Proficient in **Production Processing Models, Bill of Materials (BOM), Purchase Info** Records, and Recipe-related Master Data, with the ability to integrate these functional aspects into APO workflows.
- Demonstrated expertise in **subcontracting, heuristics**, and deployment strategies, optimizing demand and material flow within APO.
- Managed **Core Interface (CIF)** between SAP APO and R/3, efficiently handling data synchronization and integration challenges.
- Created and scheduled batch jobs using standard programs and appropriate variants, ensuring system efficiency.
- Led the resolution of multiple issues related to **Transport Load Builder (TLB)** and **Deployment**, enhancing overall **supply chain efficiency**.
- Contributed to process improvement initiatives, including automation of inconsistent order deletions and **CVC (Characteristic Value Combinations)** clean-up, improving system performance and data accuracy.

SAP Consultant Intern, ACL Digital

Jan 2020 – Sept 2021

- Delivered functional and configuration support for SAP APO DP and SNP modules in a fast-paced retail environment.
- Configured planning books, data views, and macros to enable efficient demand and supply network planning.
- Fine-tuned **forecast profiles, key figures, and alert profiles** to improve planning accuracy and exception handling.
- Supported CIF integration between SAP APO and ECC for real-time data synchronization of master and transactional data.
- Worked closely with **ABAP team** to develop custom reports for demand trends, inventory levels, and planning **performance KPIs**.
- Provided user support, testing, and documentation during APO system upgrades and enhancements.
- Participated in process improvement initiatives to **streamline forecasting cycles**, reduce manual intervention, and enhance supply visibility.

Education:

Master's degree in data science

University of Memphis, Memphis, United States | January 2023 – December 2024 | GPA: 3.6

Bachelor of Technology in Electrical and Electronics Engineering

Sreenidhi Institute of Science and Technology, Hyderabad, India | June 2017 – August 2021 | GPA: 3.8

Certification:

- SAP S/4HANA Certified Consultant
- SAP MM Certified Professional
- SAP PP Certified Professional
- SAP APO & IBP Training
- Power BI & Tableau Certification
- Six Sigma (Green Belt & White Belt)
