

Muhammad Baig

Data Analyst

Address South Plainfield, NJ

Phone +1 (848) 239-9401

E-mail baigm2647@gmail.com

With over 3 years of experience as a Data Analyst, I specialize in data extraction, manipulation, visualization, and reporting using tools like Tableau, Power BI, and Python (Matplotlib, Seaborn). I have experience in business and data analysis, data migration, and ETL processes with SQL Server (SSIS, SSRS), as well as using R (ggplot2, Shiny) for data visualization and app development. I'm skilled in working with Microsoft Azure, including SQL Azure, NoSQL, and ML Studio, and have experience with Teradata in banking, finance, and life sciences. I've designed dashboards, reports, and SQL queries, and I'm proficient in creating reports with SAP Business Objects and Webi. I also have a strong understanding of SDLC, Agile, and Waterfall methodologies and possess excellent problem-solving, communication, and teamwork skills.

Skills

Database Systems	PostgreSQL, MySQL, MongoDB, MS SQL Server, IBM DB2, Oracle, PL/SQL, SSIS, SSRS, Hadoop, Teradata, NoSQL
Programming Language	C++, MATLAB, Python, R, SAS, JSON, Java, SQL, HTML, CSS, C, Java Script
Analytics Tools	Excel, NumPy, Pandas, Scikit Learn, Alteryx, Tableau, Matplotlib, Seaborn, SSRS, GIT, AWS, Google Cloud, Snowflake, Jira, Slack, Ms Excel, Ms Teams, CI/CD, Tableau, Power BI
Operating System	Windows, Linux, macOS
SDLC Methodology	JIRA, Scrum Methodology, Agile
Frameworks	Node.js, React, Bootstrap, Junit
Cloud Platform	Microsoft Azure, AWS

Work History

Data Analyst

State Street, Remote-USA

2023/09 - Current

- Analyzed financial data using MySQL, extracting insights that improved operational efficiency by 25%.
- Optimized digital marketing strategies using Google Analytics to monitor website traffic, resulting in a 30% increase in client engagement.
- Generated detailed financial reports and actionable insights, driving better decision-making and improving stakeholder satisfaction by 20%.
- Implemented Word Press CMS for financial service portals, improving client scheduling and communication, leading to a 40% increase in client satisfaction.
- Developed SQL views and queries to streamline data retrieval and enhance financial reporting processes, improving data analysis speed by 35%.
- Automated administrative tasks with Python scripts, boosting operational efficiency by 50%.
- Ensured data accuracy and consistency in financial analysis through Python Pandas, reducing errors by 15%.
- Led successful data migration projects, reducing migration issues by 20% through risk assessments and quality assurance measures.

Data Analyst

CSAA – a AAA Insurer Company, Remote – USA

2021/11 – 2023/ 09

- Conducted comprehensive analysis of functional and non-functional data elements, creating detailed documents to guide data profiling and mapping from source to target environments.
- Developed and implemented DML code and statements for database management, ensuring data integrity and performance.
- Led ETL methodologies, particularly with Informatica, for seamless data extraction, transformation, and loading within a complex Enterprise Data Warehouse.
- Conducted rigorous data reconciliation between integrated systems, ensuring data accuracy and consistency.
- Generated metrics reports and conducted data mining activities using tools like Access to extract actionable insights.
- Managed data mapping activities to Teradata, ensuring alignment with enterprise data standards and compliance.
- Led importing and cleansing of high-volume data from diverse sources, maintaining data integrity and quality.
- Created and monitored workflows using workflow designer and monitor tools.
- Managed data management projects and fulfilled ad-hoc requests using various software programs and tools.
- Developed SQL scripts for testing mappings and maintained Traceability Matrix of Business Requirements.
- Conducted extensive data validation and back-end testing, addressing data quality issues.

Education

Bachelor of Science: Computer Science

Rutgers University –New Brunswick, NJ

Certifications

- Cisco Data Analytics Essentials Certification
- Udemy Microsoft Power BI Data Analyst Certificate
