

Murad Meshanni, Ph.D.

Astoria, NY | 862-686-4500 | meshannim@gmail.com | [linkedin.com/in/muradmashanni/](https://www.linkedin.com/in/muradmashanni/)

SUMMARY

Highly accomplished Ph.D. in Global Affairs with 7+ years of specialized experience applying advanced data analysis, statistical modeling, and research methods to complex global and policy challenges. Skilled in Python, R, SAS, Stata, and SPSS, with expertise in data visualization, qualitative/quantitative analysis, and translating findings into actionable insights. Experienced in mentoring, stakeholder engagement, and producing evidence-based recommendations that support strategic decision-making.

TECHNICAL SKILLS

Programming & Analysis: Python, R, SAS, Stata, SPSS, NVivo, MAXQDA, ATLAS.ti

Policy Analysis: International Policy Harmonization, Tech Policy Research, AI Policy Research, Security Studies

Data Visualization & Tools: Tableau, Excel, ggplot2, Google Charts

Other Tools: Microsoft Office Suite, WordPress

Languages: English (native), Arabic (advanced), French (intermediate), German (novice)

EXPERIENCE

Independent Cyber Policy Researcher

08/2019 – 05/2025

Rutgers University | Newark, NJ

- Conducted doctoral research on international cybersecurity cooperation generating novel insights into U.S. policy variances with the U.K. and Germany and informing future diplomatic strategies
- Collected, cleaned, and analyzed large qualitative and quantitative datasets to assess cybersecurity frameworks (e.g., NIST CSF (2.0), U.K. National Cyber Strategy, EU Cybersecurity Act, etc.)
- Conducted over 30 industry and policy experts interviews, coding and analyzing transcripts with NVivo and MAXQDA to identify cross-national trends in cyber policy and cybersecurity behavior.
- Produced policy recommendations for digital governance using statistical modeling, trend analysis, and visualization.

Undergraduate Lecturer - Political Science

08/2019 – 05/2025

Rutgers University | Newark, NJ

- Designed and independently taught undergraduate courses in comparative politics focusing on globalization, global political economy, cyber-readiness, security, and political theory
- Developed syllabi, assessments, and multi-modal teaching strategies and methods for hybrid and in-person formats
- Guided and mentored students 15 - 40 students per course developing data literacy, research design, and presentation skills
- Achieved average student course evaluation ratings of 97%, significantly enhancing engagement in complex policy and political topics. Full student survey reports available upon request

Graduate Assistant - Marketing and Alumni Relations

08/2018 – 08/2019

Rutgers University | Newark, NJ

- Produced marketing collateral via Adobe InDesign, Canva, Affinity, and Adobe Photoshop for cross-platform campaigns through Hootsuite and Constant Contact
- Coordinated digital outreach initiatives and alumni outreach programs (e.g., Alumni Council Initiative), demonstrating stakeholder management and strategic communication
- Significantly increased user engagement with Graduate School social media (Facebook and Twitter) by 30%
- Coordinated member data collection and supported CRM database management.

Research Assistant - Policy & Urban Innovation

01/2017 – 08/2018

Rutgers University | Newark, NJ

- Evaluated Year 1 outcomes of grant recipients using mixed-method data analysis (quantitative metrics & qualitative case reviews)
- Conducted policy research on Seed Grant programs that supported underrepresented entrepreneurs in Newark, NJ, leading to enhanced understanding of program effectiveness and recommendations for policy improvements

- Conducted both independent and collaborative research contributing to draft publications on inclusive economic development and social equity, which informed policy discussions and academic discourse

Associate Researcher

08/2013 – 04/2015

United Nations Educational, Scientific and Cultural Organization | Rutgers Chapter

- Conducted research relevant to genocide, conflict resolution, and human rights studies
- Assisted in creating educational materials for educators, enhancing their ability to teach complex topics related to genocide and human rights
- Designed and organized a plan of action to integrate the Center of Genocide and Human Rights with modern digital technologies, improving its outreach and educational capabilities

Emergency Medical Technician (EMT)

10/2010 – 01/2016

Hawthorne Volunteer Ambulance Corps. | Hawthorne, NJ

- Delivered rapid, high-stakes care in dynamically evolving and complex medical situations by applying critical thinking and rapid decision making
- Collaborated seamlessly with multidisciplinary Emergency Service Members (police, firefighters, paramedics, and hospitals) to ensure coordinated emergency response and patient safety

EDUCATION

Rutgers University

Newark, NJ

Doctor of Philosophy in Global Affairs [Specialization: International Cyber Policy]

09/2019 – 05/2025

Rutgers University

Newark, NJ

Master of Science in Global Affairs

01/2017 – 05/2019

Rutgers University

Newark, NJ

Bachelor of Arts in Political Science

09/2011 – 05/2015

RESEARCH

Doctoral Dissertation

05/2025

- On Cyber Pragmatism: Comparing America's international cybersecurity cooperation with the U.K. and Germany

The U.K. and Germany represent two of the most important cyber allies of the U.S. Despite comparable degrees of broad security cooperation since the Cold War, the U.S. has demonstrated a strong preference in engendering deeper cyber cooperation with the U.K. over Germany. What explains the variance in the cyber relationship with the respective governments - is it more influenced by government policy or corporate behavior? To answer this puzzling question, I analyze and provide propositions derived from theories of bureaucratic politics, technology special interest groups (TIGs), and civil-military relations.

SELECTED PRESENTATIONS

Colloquium Series | *The Badlands of Cyberspace* | Newark, NJ

04/2019

- Delivered a presentation on demystifying ethics and morality in cyberspace

Conference | *Populistic Nationalism: The Great Challenge Within Liberal Democracies* | Newark, NJ

02/2018

- Delivered a presentation based on original research that analyzed the rise of nationalism and export populism in the United States and other democratic states.
- Examined how emerging technologies (i.e., artificial intelligence, automation, and robotics) have disrupted labor markets, fueled economic and social insecurity, and contributed to the backlash against globalization

HONORS AND AWARDS

2025 – Finalist and Honorary Mention: University-Wide Outstanding Dissertation Award

2025 – Recipient: Dean's Dissertation Pathways Fellowship

2020 – Inducted Member: Sigma Iota Rho Honors Society

2019 – Recipient: Graduate School TAsip

2018 – Student Ambassador: Oslo Freedom Forum

2017 – Recipient: Emergent Threats in the 21st Century (ET21) Fellow

2014 – Inducted Member: Pi Sigma Alpha Honors Society
