EXPERIENCE

Data Analyst: Capgemini Technology Services

Oct 2021 – Jul 2023

- Designed 10+ interactive Power BI apps consolidating 50+ reports, improving user experience by 30% and supporting 500+ stakeholders.
- Built dashboards for Sales, Rebates, SLA, and Compliance metrics using DAX and SQL, integrating data from Snowflake and MS SQL Server.
- Automated reporting workflows with Power BI, Power Query, and Power Automate, reducing manual effort by 10+ hours/week and cutting reporting time by 40%.
- Migrated 10+ Tableau reports to Power BI, enhancing visualizations and accelerating insights by 20–30%.
- Ensured 99.9% data accuracy by cleansing 10M+ ServiceNow records and standardizing monthly SLA reports with 100% compliance.
- Trained clients on dashboard usage, boosting adoption and satisfaction by 20%, and reduced ad-hoc report requests by 40% through efficient data modeling.

EDUCATION

University of New Haven

Aug 2023 – May 2025

Master of Science in Business Analytics, GPA: 3.9

G Pulla Reddy Engineering College

Aug 2017 – July 2021

Bachelor of Technology in Mechanical Engineering, GPA: 7.32

SKILLS

- | | | |
|---------------------|-----------------------|-----------------------|
| • Python/R | • Jira | • ETL |
| • Power BI | • Jenkins | • Predictive Modeling |
| • Tableau | • Data Extraction | • Data Mining |
| • Agile Methodology | • Risk Management | • KPI Reporting |
| • Scrum | • Data Wrangling | • SQL Querying |
| • MS Excel | • Data Transformation | • Data Modeling |

PROJECTS

Staffing Optimization (Ceaser’s Entertainment) | Predictive Analytics

Jan 2025 – Apr 2025

- Built a predictive staffing model using ARIMA and Multiple Linear Regression in R to forecast hotel check-ins, enhancing workforce planning and service quality.
- Applied K-Means Clustering on guest data to segment customers into 3 actionable groups, supporting data-driven service strategies and marketing initiatives.
- Developed a rule-based staffing framework ensuring a minimum of 9 employees daily, improving operational efficiency and reducing service bottlenecks.
- Compared ETS vs ARIMA model performance (RMSE, MAE, MAPE), choosing ARIMA for superior forecasting accuracy and seasonal trend handling.

Data-Driven Marketing Strategy (ACME Innovations) | Data Mining

Mar 2024 – May 2024

- Engineered a marketing solution using R programming and advanced data mining techniques, enhancing marketing efficiency and overall campaign effectiveness.
- Implemented K-Means Clustering for customer segmentation, analyzing data from over 5000 customers, focused marketing strategies on key segments.
- Employed Association Rule Mining for product recommendations, contributing to a 20% growth in cross

selling opportunities and product bundling.

- Examined customer loyalty patterns and purchase behaviors, uncovering 5 critical segments and improving customer retention through targeted campaigns.

Insurance Fraud Analysis (Prudent Life Insurance) | Power BI

Aug 2023 – Dec 2023

- Assessed Customers and Employee data, formulating loss minimization strategies, and analyzing over 5,000 accounts using BI tools and R programming.
- Designed interactive dashboards, visualizing key metrics such as Company turnover and risk factors, supporting financial teams in data-driven decision-making.
- Applied predictive analytics models, detecting at-risk borrowers, Fraud by Employers and Customers, and enabling timely interventions.

CERTIFICATIONS

- | | |
|--|-----------------|
| • Learning R and Excel Certification Course from LinkedIn Learning | Aug 2023 |
| • Google Data Analytics Certification from Coursera | Mar 2023 |
| • Google Cloud Associate Cloud Engineer (GCP-ACE) by Google | Apr 2022 |
