Plano, TX | +1 (551) 342-0426 | murtaza.ziya@techsmail.com | LinkedIn

SUMMARY

Data Engineer & Analytics professional with **5+ years'** experience transforming raw datasets into accurate, actionable insights. Known for building Python and SQL-based ETL pipelines, cleaning and validating large-scale data, designing data warehouses, and automating workflows across cloud platforms like AWS, Azure, BigQuery, and Snowflake. Engineered scalable data models, integrated multi-source enterprise data, and delivered automated dashboards that cut processing time by up to 50% and improved reporting accuracy. AWS Cloud Solutions Certified Architect

EXPERIENCE

AUZMOR

Aug 2024 – Current

Analytics Engineer: HRIS-LMS Data Integration & Reporting Platform

- Built **Python-based ELT scripts** to clean, validate, and transform LMS and HRIS data before loading into BigQuery, improving **data accuracy by 25%** and reducing downstream reporting errors.
- Automated **data quality checks** using Python (Pandas) integrated with Dataform pipelines, flagging schema drifts and missing values early, which cut **production data issues by 40%**.
- Developed **Python utilities** for scheduling and monitoring BigQuery jobs, replacing manual workflows and ensuring **on-time delivery of 100+ Power BI reports** to enterprise clients.

CARDINAL HEALTH

Aug 2023 - Jul 2024

Business Intelligence Engineer: Healthcare Data Integration & BI Platform

- Modeled and optimized **Snowflake data warehouse tables** via **SQL** and **dbt**, cutting query runtimes by 40% and enabling finance and ops teams to close monthly reporting 2 days faster.
- Orchestrated **AWS Data Pipeline + Airflow** pipelines to automate ingestion of **claims, HR, and inventory data** from 10+ systems, eliminating 15+ manual hours per week and ensuring 24x7 reliable refresh.
- Created **Power BI dashboards** for 200+ hospitals to monitor **drug utilization** and **stock levels** in real time, reducing stockout incidents by 18% and avoiding over \$1.2M in annual emergency procurement costs.
- Wrote **Python data validation scripts** integrated with **Airflow jobs** to flag **schema drift** and **anomalies** before reporting, cutting compliance reporting errors by 40% and lowering audit remediation costs.

VIVMA SOFTWARE INC

May 2019 - Aug 2022

Data Engineer: Enterprise Data Integration & Analytics Platform

- Built a **centralized Azure data warehouse** by integrating Salesforce, D365, ADP, and SharePoint data with **Azure Data Factory and Python ETL scripts**, improving enterprise data availability by 50%.
- Automated **CapEx/OpEx requisition workflows** using **Power Automate and PowerApps**, cutting processing time from 5 days to 1 and lowering manual entry errors by 40%.
- Developed **Python + SQL pipelines** to consolidate loan, insurance, and payments data, reducing reconciliation efforts by 30% and enhancing reporting accuracy for finance and compliance teams.
- Designed and delivered **Power BI dashboards** backed by cleaned, transformed datasets, giving stakeholders near real-time visibility into operational and financial metrics and improving portfolio risk analysis accuracy by 15%.

EDUCATION

Stevens Institute of Technology

Master of Science in Data Analytics and Visualization

Hoboken, NJ

May 2024

Vishwakarma Institute of Technology

Bachelor of Science in Electronics Engineering

Pune, India

May 2021

TECHNICAL SKILLS

Data Engineering & ETL: Python, PySpark, SQL, Apache Spark, Apache Airflow, ETL Design, Data Modeling, Schema Design, Data Integration, Data Transformation, Change Data Capture (CDC), Data Validation, Data Quality, Metadata Management, Performance Tuning, Query Optimization, Data Governance

Cloud & Big Data Platforms: AWS (Glue, Redshift, S3, Lambda, CloudWatch), Azure, GCP (BigQuery)

Data Warehousing & Database Technologies: Snowflake, Redshift, SQL Server, MySQL, PostgreSQL, DynamoDB, Star Schema, Partitioning, Indexing

Automation, DevOps & DataOps: Airflow DAGs, Jenkins, Docker, Kubernetes, CI/CD, Terraform, Kafka,

Data Analytics, BI & Streaming: Power BI, Tableau, Data Visualization, Reporting Automation, DAX
