

PROFESSIONAL SUMMARY

Aspiring Data Analyst with a solid foundation in statistics, data analytics, and visualization. Skilled in using Python, SQL, Excel, and Power BI to analyze datasets, uncover trends, and generate actionable insights. Proficient in building basic dashboards, writing SQL queries, and creating data-driven reports. Eager to apply analytical thinking to solve real-world business problems, improve decision-making, and contribute to data-driven strategies in a dynamic team environment.

EDUCATION

Amrita Vishwa Vidyapeetham | Coimbatore, India

July 2023 – Jun 2025

Master of Science, Applied Statistics and Data Analytics, CGPA -6.63/10

Bhavan's Vivekananda College of Science, Humanities and Commerce |Hyderabad, India

July 2020 – Jun 2023

Bachelor of Science, Mathematics, Statistics and Computer Science, CGPA – 7.4/10

ACADEMIC PROJECTS

Logistic Dispersion Resource Shortest Distribution using Fairness Flashing Firefly Approach for efficient task scheduling and resource allocation in the cloud environment

Jan 2025 – May 2025

Efficient Task Scheduling in Cloud Computing Developed a novel scheduling model titled Logistic Migration Resource Shortest Distribution (LMRSD) with a Fairness Flashing Firefly Approach (F3A) to optimize resource allocation and reduce task completion time in cloud environments.

Statistical Analysis Using Cars Data

Jan 2024 – May 2024

Analyzing the "cars" dataset involves exploring its structure, summarizing key variables, visualizing relationships, testing hypotheses, modelling predictive relationships, evaluating model performance, interpreting findings, and drawing conclusions with recommendations.

Market basket analysis using python

Jan 2024 – May 2024

Gathered transaction data; analyzed product sales and trends. Used Apriori algorithm to discover frequent item sets. Developed strategies based on the actionable insights discovered from the analysis.

TECHNICAL SKILLS

Languages: Python, SQL, R

Data Analysis & Visualization: Power BI, MS Excel, Python (Pandas, Matplotlib, Seaborn), Data Analysis, Data Visualization

Database Management: MySQL, MongoDB

IDEs & Platforms: Jupyter Notebook, Google Colab

Machine Learning: Supervised & Unsupervised Learning, Scikit-learn

Version Control: Git, GitHub

Certificates

Power BI Data Modeling with DAX (LinkedIn Learning)

Languages

English

Telugu

Hindi

French (read)

HOBBIES AND INTERESTS

Playing Cricket

Watching Movies

Traveling
