

NATHANAEL FOKOU

Software Engineer

nathanaelfokou89@gmail.com | 404-663-5803 | MANASAS, UNITED STATES | NATHANAEL FOKOU

Education

B.s Computer Science, Kennesaw State University

May 2025

Coursework: Software Testing, Algorithm Analysis, Programming and Problem Solving, Database Systems, Parallel and Distributed Systems, Artificial Intelligence, Data Structures, Operating Systems.

Skills

Python, Java, Javascript, HTML5, CSS3, PHP, MySQL, Git, Github, Node.js, Spring Boot, AWS, Netlify

Professional Experience

Software Engineering Intern, Elios Consulting

May 2024 – August 2024

- Optimized database queries with **MySQL** indexing, improving application performance by **30%** and speeding up data retrieval.
- Performed backend testing with **JUnit**, fixing 25% of critical bugs and ensuring reliable **API performance**.
- Developed modular API endpoints using **RESTful APIs** (e.g., /api/products, /api/orders, /api/users), reducing development time for future features by **40%**.

Software Engineering Intern, G.E.V Transportation

May 2023 – August 2023

- Led the end-to-end development of the **package delivery** functionality, using **Spring Boot** and **MySQL**, which ensured successful implementation and deployment, improving delivery process efficiency
- Built modular backend architecture for the delivery system to support scalability, route optimization, and real-time tracking features

Projects

DeskTrader.io

May 2024 – August 2024

- Implemented conflict resolution for concurrent trades using **Optimistic Concurrency Control (OCC)** with **Java ThreadPools**, ensuring data consistency and preventing **race conditions** during high-volume trade execution.
- Developed the platform using **Spring Boot** for the backend and **React.js** for the frontend, enabling real-time stock price tracking and trade execution.
- **Deployed the platform** to **AWS**, using Docker containers and CI/CD pipelines for smooth deployment and scalability.

E-Commerce Web App

May 2023 – August 2023

- **Developed a fully responsive e-commerce platform** that allows users to browse products, add items to their cart, and complete secure transactions through **Stripe payment gateway integration**.
- **Integrated authentication and authorization** using Firebase Authentication, enabling secure sign-up/login via email and social accounts (Google, Facebook).
- **Built an admin dashboard** for product and order management, allowing store owners to update inventory and track sales metrics in real-time.
